

WEATHER FORECASTS

CENSUS DOES NOT DISCLOSE REAL GROWTH

Total Count for City Shows Slight Decline—Suburbs Not Included

FEWER ORIENTALS RESIDE HERE NOW

As was anticipated, the population within the city limits of Victoria remains approximately the same as that taken in 1921, showing but a small decline of 286 from a total of 38,727 ten years ago to 38,441 this year.

Not included in the taking of the census in 1921 and the present day, Oak Bay, adjoining the city, has developed and grown at a rapid rate, and the same is true of Saanich, while it is expected that Esquimalt will also show gains.

While no announcement has yet been forthcoming from Ottawa as to the population of the three municipalities which comprise Greater Victoria, it is expected that the total for the area will show a substantial increase in population.

EIGHT HELD IN DRIVE ON REDS

TORONTO, Aug. 13 (CP).—With eight leading Communists under arrest, only one of the "Red" leaders sought by police when the drive against the Communist party in Canada was initiated Tuesday, remained at large tonight.

Arrest at Cochrane of Amos T. Hill, former editor of Vapour (Liberator), a Finnish Communist organ published in Sudbury, brought the total number in custody to five of the six originally sought by Ontario authorities.

Three others were arrested in connection with raids on Communist meeting places and offices here. Thomas A. Even, secretary of the Workers' Unity League, had not been apprehended late tonight.

Morrison Wins Way To Semi-Finals in Canadian Golf Meet

Local Player Defeats Francis Ryan, Detroit, 2 Up—Will Play Ross Somerville Today—Fredie Wood, of Vancouver, Eliminated

MONTREAL, Aug. 13 (CP).—Truly national and international in strength and scope, a field of four favorites swept into the semi-final round of the Canadian amateur golf championships today.

Most impressive in the performance of winning their quarter-final matches today were the defending champion and Arthur Yates after breezing through to two double-figured victories on Tuesday and Wednesday. Somerville came up against something more difficult today in the person of Francis Ryan, a youthful local golfer, who was playing in his first major tournament.

Yates goes well. Yates soon stepped into a favored limelight when he owned Phil Farley, the nineteen-year-old Ontario amateur champion, by a comfortable margin of 5 and 3. An affable, huge-framed individual, Yates has an impressive record in golf. He was a semi-finalist in the United States amateur in 1923. New York State champion in 1927 and a consistent winner in the Southern Winter tournaments. He showed such stellar form today that he moved into major consideration as Somerville's final opponent.

But the favored players must hurdle a sizeable barrier tomorrow. Somerville goes up against Bob Morrison, the steady and consistent golfer from Victoria, who scored an international victory for Canada today, when he defeated Francis W. Ryan, of Oakland Hills, Detroit, 2 up, after the closest match of the day. In winning over Ryan, Morrison turned in an approximate medal score of two under par. In the afternoon, and stamped himself a fighting match player.

Quebec in Throes of General Election

On August 24 the electors of Quebec will choose their representatives for the Legislative Assembly, and the short, sharp contest is expected to be fought largely on the Beaudry-Power issue. Our layout shows the Quebec Parliament Buildings with Premier Taschereau, inset left, and Camille Houde, leader of the Conservative Opposition, inset at right. Mr. Houde also is Mayor of Montreal.

Highway Feasible Say Members of Alaska Road Body

Hon. George Black, Speaker of Commons, and Ernest Walker Sawyer, United States Representative, Believe No Engineering Barriers in Way of Northwest Route

"The British Columbia-Yukon-Alaska Highway route presents no great difficulties from an engineering standpoint in so far as the Yukon section of the way is concerned, and the people of the Yukon are heartily in favor of the project," Hon. George Black, Speaker of the House of Commons, at Ottawa, and Federal member for the Yukon, stated on arrival here yesterday for an informal gathering by three of the six members of the proposed international committee which will study the subject.

Mr. Black stressed the fact that the committee's duties would be solely of a fact-finding nature, without in any degree binding Canada or the United States to entertain the proposed route for the Northwest transverse highway to Alaska.

The first formal meeting of the committee, he indicated, would be held about October 10 at Victoria.

With Ernest W. Sawyer, executive assistant to the Secretary of the Interior for the United States Government, and George P. Napier, assistant chief engineer for the Province, Mr. Black met the Cabinet yesterday afternoon in an informal and friendly discussion of the Golden Twilight Highway route.

In the morning all three members of the committee held a brief discussion, in which Mr. Sawyer gave valuable hints concerning the route.

HIS MAJESTY SENDS WISHES

Graciously Accepts Message of Loyalty From British Columbia Citizens

Through the Secretary of State for Dominion Affairs and Rt. Hon. R. B. Bennett, His Majesty King George V yesterday, acknowledged receipt of British Columbia's message of loyalty on the eve of the anniversary of Confederation, and graciously extended good wishes to the Government and people of the province. The following message was relayed through British and Dominion state channels to Hon. J. W. F. Johnson, Lieutenant-Governor:

"Please inform the Administrator of the Government of British Columbia that his loyal message was laid before His Majesty the King, who was pleased to receive it very graciously and commands that his best wishes should be conveyed to the Government and people of British Columbia." The cable was signed on behalf of the Secretary of State for Dominion Affairs, London.

Accompanied by Mrs. Johnson and their immediate family, His Honor the Lieutenant-Governor took up formal residence at Government House this week. Premier Toomey paid his respects to Hon. J. W. F. Johnson yesterday morning.

Official figures were: Bourgeois, 13,479; Carlepy, 13,396.

NEW BUDGET FOR BRITAIN IN PROSPECT

Leaders of Three Main Parties Confer on Financial Proposals

PARLIAMENT MAY BE SUMMONED EARLIER

LONDON, Aug. 13 (CP).—Another budget within six months hangs over the head of the British taxpayer.

Leaders of the three main parties conferred at Downing Street today following the deliberations of the special subcommittee of the Labor Cabinet. The meetings adjourned tonight, a second finance bill lay in the background.

In the British Parliament the finance bill gives legislative effect to the taxation proposals in the budget. And under the suggested new finance bills, any additional taxation necessary to make the budget balance would be imposed. Where legislation was necessary to give effect to agreed-upon economies, the legislation would be embodied in the finance bill.

For weeks there have been hints of a possible supplementary budget. Hon. Philip Snowden, Chancellor of the Exchequer, has admitted the calculations of revenue he made when the budget was brought down last April have not been justified by results. There have been supplementary expenditures. The Hoover war debts moratorium made an additional call on the exchequer of \$50,000,000, for which no allowance was made. And even before adjournment there were hints that the House would be summoned earlier than October 20.

ATLANTIC HOP CONTEMPLATED

Ambitious Plan Will Provide for Six Planes to Make Flight

MONTREAL, Aug. 13 (AP).—One of the most ambitious transatlantic flights yet contemplated, a journey by a fleet of five or six Aeromarine light airplanes across the Atlantic from Canada to Great Britain by way of the southern tip of Greenland, Iceland and the Faroe Islands, is in the course of preparation, Bretislav Pliske, a former war aviator now living in Toronto, stated here today.

The flight would be made next summer, Pliske said. The start would be from Ottawa with London the destination. A preliminary flight by himself in a cabin plane would be made first, he added, possibly this year, but more probably early next summer.

CUBAN REBELS HALT FIGHTING

President Machado Enters Fighting Zone—Informal Truce Declared

HAVANA, Aug. 13 (AP).—President Gerardo Machado personally invaded Cuba's revolutionary strongholds in Santa Clara Province today and a full in the scattered fighting between the rebels indicated both sides had declared an informal truce, pending results of the President's visit.

From some sources came a report the President might take actual charge of the operations in Santa Clara, but the palace, however, merely announced he intended to make a personal inspection of conditions and treat with certain opposition leaders.

He was reported to be holding long conferences with provincial officials, including Governor Juan Vazquez Bello and Col. Emiliano Amel, commanding the troops in that military district.

Acting on the President's suggestion it was said, Colonel Amel issued an edict offering amnesty to all insurgents who yield up their arms within twenty-four hours.

Only from Primar Del Rio Province, where most of the fighting has taken place, did reports come today of fresh conflict.

Official figures were: Bourgeois, 13,479; Carlepy, 13,396.

CANADA WILL COME THROUGH WINTER IN GOOD CONDITION STATES PRESIDENT OF C.P.R.

Careful Plans for Unemployment Relief Give Promise of Dominion Weathering Depression With Less Hardship Than Anticipated—Meeting Problem Sanelly, Courageously

Country Is Better Off Than Any Other Nation in World

HALIFAX, Aug. 13.—"Plans being made to provide work and relieve unemployment during the coming winter are of such magnitude and are being so carefully worked out that I fully expect we will come through the winter months with less hardship than has been formerly expected, though, in my judgment, there are not any tangible evidences of a return to normal conditions," declared E. W. Beatty, K.C., chairman and president of the Canadian Pacific Railway, in answer to questions submitted by newspapermen during his visit to Halifax today.

Mr. Beatty said that he believed the lowest level in the present depression had been reached, and speaking further of the approaching winter, stated his conviction that, "while Canada, which is only one nation of many who are suffering, cannot by its own policies relieve the effect of conditions which are world-wide, it can do much by anticipating this winter's conditions and providing work to lighten the effect of the former and limit the hardship which naturally follows."

With COURAGE "We are grappling with this problem in a courageous and large way and I feel reasonably satisfied we will come through the winter better than we expected. If we do so we will have accomplished much in limiting the social evils which follow as a consequence of discouragement and unrest created through lack of work, and the existence of real distress."

"I do not know any country which is relatively better off than Canada," the Canadian Pacific Railway's president continued. "Nor does my information lead me to think that there is any people which is dealing with its problems more courageously or more sanely."

CANADIAN RAILS Mr. Beatty, who was accompanied by a distinguished party of financiers and industrialists, arrived here this morning by special train from Sydney, where yesterday he inspected the British Empire Steel Company and watched the rolling of its forming part of the large order recently placed by the C.P.R. with the Sydney plant.

DAI THOMAS REMANDED VANCOUVER, Aug. 13.—Charged with conspiracy to defraud, Dai Thomas appeared in police court today and was remanded until August 20. Police are also holding a warrant, containing a similar charge against Frederick Burrard Street. The hearing of the charge against Thomas will be remanded until after Rivers has been apprehended.

EXPLOSION OF POWDER KILLS TWENTY-SEVEN

HONGKONG, Aug. 13 (AP).—A terrific explosion of ten tons of gunpowder stored underground killed twenty-seven persons, injured many others and destroyed much property at Macao, Portuguese colony, near here, today.

The blast was ascribed to spontaneous combustion, although earlier reports intimated it might have been an act of sabotage by discontented Portuguese troops.

The powder was stored at Flora Port, in a well-to-do district. Many houses were wrecked. The dead included eight Portuguese and nineteen Chinese.

THOUSANDS HOMELESS As Floods Continue To Spread in Mexico

Sixteen Towns Completely Covered by Water—Many Stranded on Roofs May Be Doomed as Rescuers Are Unable to Meet Situation

By A. ALICANTARA PASTOR (Copyright, 1931, by The Chicago Daily News Foreign Service)

MEXICO CITY, Aug. 13.—Press dispatches from Tampico indicate that the flood in the Mexican State of Tamaulipas due to the overflowing of the Pecos River has reached disastrous proportions. Sixteen towns are reported to be completely covered by water and an estimated 8,000 families are homeless and roaming in the mountains, foodless and living on roots and herbs.

TWO JAPANESE ARRESTS MADE

Six Now Charged in Connection With Plot for Alleged Illegal Entry

VANCOUVER, Aug. 13 (CP).—With mounted police taking two more Japanese into custody today, arrests in the alleged plot to bring Japanese into Canada illegally have reached a total of six.

One of the six, Gekichika Mayeda, was found guilty of forging a birth certificate, and was sentenced to a year in prison, while three others are awaiting trial at the Fall Assizes. At their preliminary hearings all were committed to a higher court. They are Fred Yoshi, former Japanese interpreter at the Vancouver Immigration sheds; Tokichi Tanaka, Lulu Island school teacher; and Soreki Kojima, of Vancouver.

Yoshi is charged with having committed a breach of trust while an employee of the Canadian Immigration Service, while the other two are charged with conspiracy to evade the Canadian Immigration laws.

The two taken into custody today were Yone Oye and Haruo Hashimoto. They are charged with having entered the Dominion unlawfully.

U.S. Flyers to Be Indicted By Japanese

TOKYO, Aug. 14 (AP).—The Rengo News Agency said it was informed by the public prosecutor's office today that Clyde Pangborn and Hugh H. Blair, Jr., American flyers, after being delayed, they abandoned an effort to beat the Post-Gazette record for an around-the-world speed flight.

The flyers from the first denied any intention of violating the stringent Japanese regulations against flying over fortified areas. They explained their knowledge of the country was limited, and any flying over forbidden areas had been accidental.

Lindberghs Will Make World Tour

NOME, Alaska, Aug. 13 (AP).—Impatience to be "on their way," despite pelting rains over Western Alaska, led Colonel Charles A. Lindbergh to say tonight he expected to hop off for Siberia early tomorrow if the weather is at all favorable.

Without going into details of his proposed route, he said the "vacation" would be extended by a series of flights to Europe. He did not say whether his projected route lay across Siberia or South through China and India.

A number of visits will be made, however, he said, to Japanese and Chinese cities first.

From Europe, the crossing of the Atlantic to America will be made by way of the Azores Islands, he added.

APPOINTED CHAIRMAN OF RAILWAY BOARD

OTTAWA, Aug. 13 (CP).—Mr. Justice Fullerton, of the appeal division of the Supreme Court of Manitoba, and formerly of Amherst, N.S., has been appointed chairman of the Board of Railway Commissioners. The new chairman succeeds Hon. H. A. McKeown, who resigned several months ago. Announcement of the appointment was made tonight.

GOV'T HAS MANY ATTACKS TO MEET

More Socialistic Elements Rother
Premier MacDonald—Economic
Investigation Pleases Public

LONDON, Aug. 13 (CP).—The Government's determination to balance the budget and the energy with which it has initiated an investigation into the economic situation had a reassuring effect in political and financial quarters today, and made a good impression on the general public.

But an indication of the difficulties besetting Prime Minister Ramsay MacDonald's Government is shown in the continued attacks from the more socialistic elements of Labor against expected economic measures.

And from the ranks of Labor attacks continue on the report of the economy committee, basis of the present Government's discussions.

SPEAKER OF HOUSE HERE

Hon. George Black Arrives
From Ottawa—Discusses
New Alaska Highway

Hon. George Black, Speaker of the House of Commons, Ottawa, arrived in Victoria yesterday, en route to Dawson City after the strenuous duties of the late season. Mr. Black called on Premier Tolmie and members of the Government, and spent the day in informal conference with the members of the international committee on the British Columbia-Yukon-Alaska highway proposals.

Committee duties held Mr. Black fully occupied for most of the day, the group holding an informal discussion in the morning and meeting the Provincial Executive in the afternoon. Members of the committee lunched with Premier Tolmie.

Before returning to Vancouver last evening, Mr. Black said he would call North for Skagway, en route to Dawson, on Wednesday, but would return to Victoria in October for the first meeting of the international committee on the highway project. People in the Far North were most interested in the project, he intimated.

WANT CHANGE IN TAX SALE

Oak Bay Council Prepares
Resolutions for Municipal
Convention Agenda

The Oak Bay Council has adopted a series of amendments to present to the Union of British Columbia Municipalities for consideration. These suggested amendments to the Municipal Act were approved at a meeting last evening and will be sent to the union for the next meeting to be held in New Westminster this fall.

Alterations in the Municipal Act desired include one asking for a return to the old system of distributing motor licence money, and liquor profits collected by the Province. It is suggested that the system of 1929 be made the basis which would abolish the present maximum of \$750,000 and \$1,000,000 respectively. The Council also asked that no maximum be required in the part going to municipalities.

Another amendment suggested would require pedestrians to keep to the left on roadways where there are no sidewalks.

TAX SALE LANDS

Other amendments are being sought to sections dealing with tax sale lands. The Council of Oak Bay would favor giving the right to a municipal council to convey any lands sold, or disposed of by the council under tax sale, by taking security by way of mortgage for the whole, or part of the purchase price and interest, which may be due in respect of such lands. It also seeks power to dispose of lands acquired by tax sale proceedings, by resolution of the council instead of requiring the passing of a bylaw.

As an annual special rate not exceeding ten cents a front foot upon the land fronting on boulevards for maintenance.

THINKS BOARDS MAY NOT SURVIVE

Hon. Joshua Hinchliffe Predicts
General Centralization of Educational Control

VANCOUVER, Aug. 13.—Eventual abolition of all school boards and general centralization of educational control was predicted by Hon. Joshua Hinchliffe, Provincial Minister of Education, in the course of a speech at a dinner in honor of the visiting British teachers. The time is approaching, the minister told the visitors, when Canada's educational system will make a radical change in the direction of centralization.

The British visitors were guests of the Vancouver School Board.

REGISTRATIONS SLACKENING OFF

Up to Last Evening 15,380 Persons
Recorded in Provincial Roster
of Unemployed

Registrations under the provincial unemployment relief plan totaled 15,380 up to last evening, with 13,182 of the number willing to go to camps. Working overtime to record and file duplicates of the forms, the special staff of public works officials logged 3,412 transcripts, 13,837 municipal residents, and 1,931 provincial residents from the registrations received to date.

Of the number recorded so far, 3,590 are persons of non-British birth. Only sixty-eight women have been registered under the system to date.

Though daily totals have brought the numbers up considerably during the week, the rate of registration is showing a falling off in the most British Columbia centres, indicating slackening off in the numbers applying under the plan.

INCORPORATIONS GIVEN LOCALLY

Two Victoria Firms and One
Solely Licensed in City This Week
—List is Announced

Two Victoria firms received incorporation papers this week, including Minity's Limited, electrical engineering and service station with offices at 965 Yates Street; and the Gulf Islands Packing Company, to handle fish and fruit products, with headquarters at 620 View Street. The Victoria Gospel Hall was incorporated under the Societies Act.

The list follows:
Minity's Limited, \$20,000, Vancouver.
Gulf Islands Packing Company, Limited, \$15,000, Victoria.
Inland Ice and Cold Storage Company, Limited, \$25,000, Vancouver.
Jersey Farms, Limited, \$50,000, Vancouver.
Maple Ridge-Pitt Meadows Fair Association, under Societies Act, Maple Ridge.
McKenzie & Fraser, Limited, \$25,000, New Westminster.
Minity's Limited, \$20,000, Victoria.
Paul Franklin Johnson Company, Limited, \$10,000, Vancouver.
Private Schools Association of British Columbia, under Societies Act.
Victoria Gospel Hall, under Societies Act, Victoria.
The Mill Engineering & Supply Company, of Seattle and Vancouver, Incorporated, under provincial papers; as did the Motor Coach Company, of Sandpoint, Idaho, and Creston, B.C.

MAJOR TAYLOR IS MOVED TO HOSPITAL

VANCOUVER, Aug. 13.—Mayor Louis D. Taylor, who has been ill and confined to his apartment for the past three weeks, was removed to St. Paul's Hospital today in order that he may receive better attention than possible at home.

Mayor Taylor became ill at the time of the airport opening ceremonies, when he spent considerable time in the heat then prevailing.

Australian Conversion Loan Grows

MELBOURNE, Aug. 13 (CP).—"Australia is taking off its coat, rolling up its sleeves and getting to grips with its problems," declared Hon. Joseph A. Lyons, leader of the united opposition in the Commonwealth Parliament, in an address tonight.

The statement that Australia is getting to grips with the problem was fully borne out by tonight's reports of the progress of the conversion scheme. With pledges and applications increasing spectacularly every day, the total amount converted has risen to more than \$1,000,000,000 out of the entire loans of \$2,200,000,000.

Today the Victorian Savings Bank converted more than \$135,000,000. The Commonwealth Bank and the largest insurance companies have already converted vast sums.

Observatory Has Added to Staff

Dr. Frank Hart, a Canadian astronomer who graduated from Toronto University, has been appointed a member of the Dominion Astrophysical Observatory staff, Victoria, and arrived here on Wednesday to take up his new duties.

Dr. Hart has been attached to one of the Eastern American universities latterly, working particularly on stellar spectroscopy, and has also done considerable research in connection with star clusters.

He and his wife drove across the continent, completing a motor tour of 4,000 miles with their arrival in Victoria.

Blame B.C. for Too Much Heat

SASKATOON, Aug. 13.—People in Saskatchewan were warned yesterday by a fire in British Columbia. Oppressive warmth, physics authorities at the University of Saskatchewan say, was due partly to haze from forest fires in the coast province, which darkened the sky here.

CHATEAU PATRICK VINTAGE Loganberry WINE

A mature table wine of delicious flavor.

NEW BUDGET FOR BRITAIN IN PROSPECT

Continued from Page 1

Meanwhile the "big five" of the Cabinet held its second meeting, taking up today departmental reports and probably formulating the economies to be put into effect. This meeting was followed by a series of consultations between Prime Minister and Rt. Hon. Stanley Baldwin, Conservative leader; Rt. Hon. Neville Chamberlain, a proponent of today's departmental reports; and Sir Herbert Samuel, Liberal financial critic and acting leader of the Liberals during Lloyd George's illness.

The Prime Minister, it is understood, invited his political opponents to participate in a three-party conference on economic issues. While Mr. Chamberlain's arrival and that of Sir Herbert, was expected, Mr. Baldwin's sudden return from a holiday in France was a distinct surprise.

HIGHWAY FEASIBLE SAY MEMBERS OF ALASKA ROAD BODY

Continued from Page 1

Alaska road system, and plans for the October meeting of the committee were considered.

The full committee consists of Hon. George Black, for the Yukon; J. M. Ward, Federal parks engineer, for the Dominion Parks branch, and P. Macdonald, for the Province, representing Canada; and E. W. Sawyer, Major Malcolm Elliott, president of the Alaska Road Commission, and Herbert H. Rice, prominent automotive executive of Detroit, representing the United States. The committee will not come formally into being until the names of the Canadian delegates have been transmitted to Washington through Ottawa.

ENTERTAINED BY PREMIER

Premier Tolmie, who was responsible for the origination of the proposals and who led the caravan trek to Hazelton last year, which resulted in tremendous publicity for the scenic attractions of the Province, received members of the committee during the day and entertained them at an informal luncheon. The Premier reiterated that the work of the committee would be of a fact-finding nature.

Mr. Sawyer spoke heartily in favor of examination of the project, referring particularly to the results that would accrue to British Columbia through the throwing open of a motor route through the province to link up the Yukon and Alaska with the hundreds of thousands of miles of traveled highways on the continent.

Alaska, he said, had 2,000 miles of roads, mostly narrow, and was capable of being expanded as traffic demanded. The British Columbia link would throw open this system, now isolated to 26,000,000 cars on the continent, and would lead to the influx into British Columbia of large numbers of tourists annually.

BUILT IN NORTHWEST

As a territory, Alaska had produced products to the value of \$1,600,000,000, and 80 per cent of this business had passed through Seattle, helping that city to its present proportions. If the highway were put through, it would mean a vastly increased production in the Yukon and Alaska, and much of this new business would go to Vancouver, as the first city of size on the way, he continued. In addition, tourist influx preceded more permanent forms of settlement.

There were 300,000 tourists in California at the present time, said Mr. Sawyer, most of whom were seeking new scenes to visit. This new business would be beneficial to all parties to the enterprise, and would develop Northern British Columbia and points beyond in a way that no other means could. Mr. Sawyer concluded. He will remain in Victoria for a few days before returning to San Francisco and Portland, in both of which places he will meet motor clubs, and other organizations that have invited him to speak on the subject.

Much detailed information has already been assembled in respect to British Columbia and the other territories that would be traversed by such a highway. This information is the result of surveys carried out over many points of the proposed route, and leaves relatively few links that remain to be reported upon. This data will be laid before the committee in October in a completed form, it is believed. The committee will report jointly to the Governments of Canada and the United States, it is intimated.

But an indication of the difficulties besetting Prime Minister Ramsay MacDonald's Government is shown in the continued attacks from the more socialistic elements of Labor against expected economic measures.

And from the ranks of Labor attacks continue on the report of the economy committee, basis of the present Government's discussions.

HIGHWAY FEASIBLE SAY MEMBERS OF ALASKA ROAD BODY

Continued from Page 1

Alaska road system, and plans for the October meeting of the committee were considered.

The full committee consists of Hon. George Black, for the Yukon; J. M. Ward, Federal parks engineer, for the Dominion Parks branch, and P. Macdonald, for the Province, representing Canada; and E. W. Sawyer, Major Malcolm Elliott, president of the Alaska Road Commission, and Herbert H. Rice, prominent automotive executive of Detroit, representing the United States. The committee will not come formally into being until the names of the Canadian delegates have been transmitted to Washington through Ottawa.

ENTERTAINED BY PREMIER

Premier Tolmie, who was responsible for the origination of the proposals and who led the caravan trek to Hazelton last year, which resulted in tremendous publicity for the scenic attractions of the Province, received members of the committee during the day and entertained them at an informal luncheon. The Premier reiterated that the work of the committee would be of a fact-finding nature.

Mr. Sawyer spoke heartily in favor of examination of the project, referring particularly to the results that would accrue to British Columbia through the throwing open of a motor route through the province to link up the Yukon and Alaska with the hundreds of thousands of miles of traveled highways on the continent.

Alaska, he said, had 2,000 miles of roads, mostly narrow, and was capable of being expanded as traffic demanded. The British Columbia link would throw open this system, now isolated to 26,000,000 cars on the continent, and would lead to the influx into British Columbia of large numbers of tourists annually.

BUILT IN NORTHWEST

As a territory, Alaska had produced products to the value of \$1,600,000,000, and 80 per cent of this business had passed through Seattle, helping that city to its present proportions. If the highway were put through, it would mean a vastly increased production in the Yukon and Alaska, and much of this new business would go to Vancouver, as the first city of size on the way, he continued. In addition, tourist influx preceded more permanent forms of settlement.

There were 300,000 tourists in California at the present time, said Mr. Sawyer, most of whom were seeking new scenes to visit. This new business would be beneficial to all parties to the enterprise, and would develop Northern British Columbia and points beyond in a way that no other means could. Mr. Sawyer concluded. He will remain in Victoria for a few days before returning to San Francisco and Portland, in both of which places he will meet motor clubs, and other organizations that have invited him to speak on the subject.

Much detailed information has already been assembled in respect to British Columbia and the other territories that would be traversed by such a highway. This information is the result of surveys carried out over many points of the proposed route, and leaves relatively few links that remain to be reported upon. This data will be laid before the committee in October in a completed form, it is believed. The committee will report jointly to the Governments of Canada and the United States, it is intimated.

NOT FAVORING EXTRA SESSION

Inner Cabinet Opposed to
Summoning British Par-
liament at Present

LONDON, Aug. 13 (CP).—The "Inner Cabinet" of the Labor Government, busy discussing ways and means of meeting the budget deficit, is understood to be decidedly opposed to the summoning of an extraordinary session of Parliament, although it was intimated before adjournment that Parliament might be summoned before the scheduled date in October.

Some members of Parliament are understood, however, to believe a special session is desirable. Sir Donald Maclean, prominent Liberal, declared tonight: "Our budget is the key to the situation; if the confidence of our banker fades a run by the council."

on him is inevitable and often impossible to halt. "Our only remedy is the restoration of international confidence in our national position. I hope the Prime Minister will not hesitate to summon Parliament at once if the situation does not quickly and materially improve."

TO OBTAIN RELEASE OF "WALKIE" BOND

VANCOUVER, Aug. 13.—Canadian Northwest Amusement Association will obtain release of its bond placed with the city in connection with the walkabout at the Auditorium, if recommendation of the finance committee is approved by the city council next Monday. This was decided at the committee's meeting when a letter was read from the licence inspector stating that he believed all contestants had filed releases of claims against the company. It will also be recommended that owners of the Auditorium receive back their licence, canceled following refusal of the amusement company to bring its contest to a close on the date set by the council.

PROPOSALS TO BEAUTIFY CITY

Plans Already Being Sub-
mitted for Consideration
by Special Committee

The committee on the Capital City beautification project has not had long to wait, following the call made for suggestions at the meeting on Tuesday. Three schemes have been put forward. One of these calls attention to the untidy appearance of parts of the entrance to the harbor. It is set out that the Provincial Government and the Canadian Pacific Railway have provided attractive areas. Some of the other parts are described as being objectionable. The suggestion is made to remove some of these and to spray with paint other objectionable parts of the entrance.

A second plan suggested is the building in of cement seats along Ross Bay Esplanade, which would be welcomed by aged persons and by mothers with small children. It is also suggested that iron seats might be placed in parts of Fairfield and other districts.

A third suggestion is to eliminate the foul odors arising from the waters of the Causeway. It is suggested that a cement wall about one foot above high water be erected along the front, and that a trench behind it be filled in with earth, in which shrubs, flowers and grass could be planted.

WILLIAM BAGLEY

IS REFUSED BAIL

Application Opposed by Crown
Counsel on Various Grounds—
Being Held at Oakalla

NEW WESTMINSTER, Aug. 13.—Bail was refused William Bagley, alleged Harrison Hot Springs Hotel bandit, by Judge J. N. Bess, in County Court today. The application was made by John Sutherland, Vancouver, counsel for Bagley, and it was opposed by F. G. Lucas, K.C., Vancouver, counsel for the Crown.

Bagley is being held in Oakalla prison awaiting trial. Mr. Lucas stated the application was opposed on the ground that Bagley had fought extradition from the United States, also that bail had been refused at Bellingham and that Bagley had made a desperate attempt there to break jail.

The accused had had an opportunity to be tried at the last assizes, but had refused to elect. Mr. Sutherland suggested bail of \$5,000. He protested against what he termed scandalous reports regarding Bagley published in newspapers. Judge Ellis, however, said he had not read any reports of the case and was not affected by them.

DELEGATES ARE

VISITORS HERE

Australian Representatives to the
B.E.S.L. Conference at Toronto
Are Welcomed to Victoria

En route to Toronto, where they will attend the British Empire Service League Conference, to be held at the end of this month, Colonel and Mrs. L. R. Robb, and Col. L. M. Mullen, D.S.O., V.D., were in Victoria yesterday afternoon for a short stay while the R.M.S. Acramani was discharging freight here.

Col. Robb is the president of the New South Wales branch of the Australian Returned Soldiers' League, while Col. Mullen holds the same position in the Tasmanian branch of the league. The visitors were met here by a delegation representing the local branches of the B.E.S.L., consisting of: W. R. Tall and H. Thompson, Britannia branch; W. J. Johnson and J. H. Slingsby, Naval Veterans branch; and C. A. Gill and Col. H. T. Goodland, of the Pro Patria branch.

While in Victoria, the visitors were the guests of the local representatives and were taken on a scenic drive around the city.

LOTTERY SUGGESTED

TO BALANCE BUDGET

LONDON, Aug. 13 (CP).—With the vital necessity of balancing the budget in the forefront of public discussions, it was seriously suggested in certain quarters today that a state lottery with prizes of half yearly draws for bonuses might prove more profitable to the state than the suggested loan-conversion scheme.

Use of electric motive power in

Argentina is rapidly increasing.

\$20,000 Prize Contest

Arousing Unusual Interest

Murphy Electric Co., local Kelvinator dealers, report unusual interest being aroused by the \$20,000 prize contest recently launched by the Kelvinator Company. "The purpose of this contest is simply to get people better acquainted with the advantages of Kelvinator electric refrigeration," stated Mr. Murphy. "It is hard to get people to realize the economy and convenience of this comparatively new piece of household equipment. But if a woman comes to my showroom and examines one of these refrigerators and finds out exactly how it operates, then at some future date she may decide to invest in a Kelvinator."

That is all anyone needs to do to enter this contest—just examine a Kelvinator and check it against a Standard Rating Score Card which the Kelvinator dealer will supply—then write a short letter on "What I Have Learned About Kelvinator." Prizes are unusually generous, totaling well over \$20,000. In addition to several cash prizes, the largest of which is \$5,000, a large number of De Luxe and Standard Kelvinator models will be given away to successful contestants. The contest will close at midnight on August 31.

Communist No Menace To Britain

EDMONTON, Aug. 13.—Communist, regarded in some parts of the world as a menace to the existing social order, has no terrors for Britain, in the opinion of Rt. Hon. Rev. A. F. Winnington-Ingram, Bishop of London, who is visiting this city.

"There is Socialism in Britain, certainly, but the masses are opposed to the radical teaching of Communism," said the Bishop. "There is, as I see it, little danger of such doctrines being adopted in the Old Country."

His Lordship is visiting Edmonton for the first time. While in the city he is the guest of Hon. W. L. Walsh, Lieutenant-Governor of Alberta, and Mrs. Walsh at Government House.

EXECUTION IS

SET FOR TODAY

Slayer of Young Polish
Couple in Peace Area to
Expiate Crime

Attorney-General Pooley was notified by the Minister of Justice, Ottawa, yesterday that no reprieve could be granted to Mike Sowry, convicted of the murder of a young Polish couple in the Peace River area, and that the law must take its course. Sowry is sentenced to be hanged today at Oakalla.

Sowry was convicted of the murder on August 18, 1930, of Joe Babchuk and his wife, Annie Babchuk, who were shot to death as they slept in their isolated cabin in the Peace River area, ten miles northwest of Pine River. For days the crime went undetected until settlers, missing the couple who had made their home in the area less than a year previously, investigated.

From a cold start some ten days after the double murder had been committed, officers of the British Columbia Police followed slender clues which led them across four provinces to The Pas, Manitoba, and thence to the home of the murderer, Berwyn, who was traced to a small town in the Peace River area.

At the trial that followed, Sowry was faced with circumstantial evidence, and by the detailed testimony of Dr. Dornum, well-known ballistic expert of Montreal, who identified the bullets fired in the Peace River cabin as coming from a rifle, possibly that of the murderer, Berwyn.

For its long search, and the painstaking manner in which the murder was traced, the case is that of the famous "Berkley" murder, and adds another feather to the cap of the provincial force.

St. Joseph's to

Add Department

With Dietitian

A new and self-contained department of dietetics is to be opened at St. Joseph's Hospital early in September, the new superior, Sister Mary Ludovic, informed The Colonist yesterday.

This will be an important up-to-date addition to the institution, bringing it into line with the most approved modern hospital methods. A qualified registered dietitian was a university graduate before she took her course in dietetics and has supervised the department of dietetics at the hospital for several years.

A section of the second floor, opening off the corridor which connects the old building with the new wing opened about a year ago, is being fitted up to accommodate this new department in the hospital. It will consist of three rooms, comprising the diet kitchen, an office and a third room. A food elevator is already in this part of the building, so that distribution to all parts of the hospital will be a simple matter.

Local Rosicrucian

Group Represented

At Recent Meeting

The Rosicrucians of Victoria were represented by Mrs. C. D. Neroucas at the International Rosicrucian convention held recently at San Jose, Cal. Fifteen countries and three jurisdictions of the order were represented at this unique mystical convocation. There were in attendance almost 1,000 members and delegates representing nearly all parts of the world.

Of outstanding importance in the business features of the annual convention was the election of a new Grand Council and Grand Master. There were also dedicated two new structures at Rosicrucian Park, the national headquarters of the organization in San Jose, first, the Sir Francis Bacon Memorial Auditorium, Sir Francis Bacon having been one of the supreme ritualistic officers of the Rosicrucian Order in Europe; second, a structure which is perhaps one of the most unusual of its kind on this continent, a replica of Karnak Temple at Luxor, Egypt, erected to commemorate the memory of Amenhotep the IV, whom the Rosicrucians consider one of the early traditional founders of their organization.

This elaborate structure, although, of course, smaller in size than the original, is quite complete in detail, consisting of a highly ornamented Egyptian pylon, with hieroglyphics and Egyptian characters painted and inscribed thereon, and an Egyptian colonnade, composed of the usual lotus-flower capital columns, typical of the structures of the Egyptian Empire.

The convention voted that the next annual session be held again at the national headquarters of the Rosicrucian Order in San Jose, Cal.

WHEAT CUTTING IS UNDER WAY

Harvest Prospects in Alberta
Reviewed—Average Yield
Reported Good

EDMONTON, Aug. 13.—Cutting of wheat has got under way in most districts of the Peace River country in the past three days, and, given fine weather, the harvest will be general by the end of the week. Prospects generally are for an excellent crop, according to the August crop report of The Edmonton Journal from the correspondents.

Preliminary estimates of yield, subject to favorable harvest weather and no more damage than the usual losses already sustained from hail and frost in small districts, average: Wheat, twenty-six bushels per acre; oats, fifty-one bushels, and barley, thirty bushels. Wheat yields in the various districts range from seven to ten to five, oats from thirty to seventy, and barley twenty to fifty bushels.

Wheat well filled. Wheat filled well, most correspondents reported, although the weather during filling out drops prospects for some districts, just as did the prolonged drought earlier in the season at Beaverlodge and Grande Prairie. Mostly grain has been ripening evenly and fairly fast considering the amount of cloudy weather. Recent heavy rains over much of the area set back the harvest several days.

The Peace River report is to the effect that not only will there be a large crop, but it will be of high grade.

HAIL LOSS ESTIMATED

Hail loss of 20 per cent is reported at Spirit River, 5 per cent at Dawson Creek and 2 per cent at Rycroft. Frost on Friday and Saturday, from low spots at Beaverlodge and Rycroft, with 5 to 10 per cent loss. Brownvale, Whitehall, Battle River and Grimshaw had slight frost, with damage to crops being negligible. Berwyn had no damage, but outlying districts had some damage. On August 6 some damage was done to small areas at Bluejay and low spots near Fairview.

ENRICH MUSEUM

BY WONDER BIRDS

Expedition Into South American
Jungles Makes Collection of
Over Three Thousand

WASHINGTON, D.C., Aug. 13.—A birds with "thumbs" on its wings, which, when only a few days old, can climb back into its nest if it falls out, is among the unusual types represented in the collection of more than 3,000 specimens of feathered creatures just brought to Washington by Ernest G. Holt, who led the Brazilian-Venezuelan expedition of the National Geographic Society into little known parts of Northern South America.

In addition to the odd climbing bird, the collection includes long bills, like the cock-of-the-rock, so-called "most beautiful bird in the world," tiny specimens with abnormally long bills, orioles that weave nests five feet long, and birds proficient in "make-up," who deliberately enhance their beauty.

Two tramp steamers to load half million bushels at Churchill Next Month

MONTREAL, Aug. 13 (CP).—Two tramp steamers will load approximately half a million bushels of heavy grain, probably wheat, at Churchill, Man., between September 15 and 25, 1931. Arrangements have been completed by the Dominion Government for a trial shipment from the Hudson's Bay port to Europe this year and a charter certificate has been prepared by Thomas Harling & Son, Montreal, who carried out negotiations.

The St. Lawrence, Wentworth and Farnworth, owned by the Dalgleish Steam Shipping Company, Ltd., have been selected, though no decision has been made to which two of these three will actually make the trip.

INTERNATIONAL NICKEL

NEW YORK, Aug. 13 (AP).—

International Nickel Company of Canada today reported first half net profit of \$3,599,886, equal to 10 cents a share on the common stock, compared with \$7,883,874 or 50 cents a share, in the first half of 1930.

Good News!

Our Mrs. Campbell, when in England, made a specially favorable purchase of Ladies' and Children's Knitted Sweaters and Dresses. As there is every indication of an advance in price of British wool merchandise, we have confidence that the exceedingly low prices at which we are offering this special purchase will be taken advantage of by intelligent buyers. Remember, this is not cheap merchandise offered at a cheap price. It is the regular stock of a well-known British manufacturer.

Ladies' Sweaters

Pure wool, silk and wool and rayon and wool, in pullover and cardigan styles. Many novel designs and colorings distinguish these Sweaters. We have a good range of sizes. Your choice at the following prices:

\$1.95 \$3.95 \$4.95

Ladies' and Misses' Knit Suits

\$4.95 and \$6.95

Shetland Wool Hug-Me-Tights, \$1.95

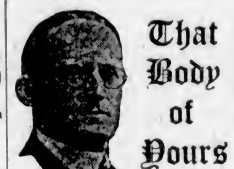

Light as thistledown in weight, but wonderfully comfy and warm, these are selling at a price so tempting that one may buy two or three, in different shades. What an ideal gift for an invalid or an elderly friend. Your choice of shades in red, navy, sage, brown and pink. Wonderfully underpriced at \$1.95

Children's Knit Dresses

\$2.95

Don't wait for school outfitting time. Make your purchase now, while this special offer lasts. You will like these two-piece fine Cashmere Pantie-Dresses; also the smart little outfit of Pleated Skirt and Jumper. These come in bright Fall shades, in sizes from 2 to 10 years. We are selling these at the remarkably low price of \$2.95

TUBE TREATMENT FOR STOMACH ULCERS

I have spoken before about the large number of cases of ulcer of the stomach and ulcer of first part of the small intestine that are cured by means of the Sippy method. This method, you may remember, consists of small meals practically every hour or two with doses of baking soda or other alkalies between meals.

Where this method has not proven successful the usual treatment is surgery, because sometimes the ulcer forms such a large amount of scar tissue that the opening from the small intestine into the stomach is almost completely closed, only liquids being able to pass through.

About three years ago I spoke of a method whereby a tube was put down the patient's throat, on the end of which was a tiny weight. After about three hours or less, when this tube would have time to pass from stomach into small intestine, food in a liquid state, was poured down the tube, which as it did not touch the stomach or first part of small intestine, where ulcer was located, did not cause any action in this region and so the ulcer got a chance to heal.

Professor Morawitz, Leipzig, reports the results obtained during the past four years by this tube method of treating these cases. A total of 153 patients were treated by this method; there were thirty-six cases of stomach ulcer, and 117 cases of ulcer of the first part of small intestine. The length of time these patients were treated by this tube method ranged from twenty to fifty days. No harmful effects were observed.

After the treatment was over every patient was free from any symptoms.

However the symptoms returned in twenty per cent of the stomach ulcers, and ten per cent of the ulcers of first part of small intestine (duodenal ulcer).

By means of the X-ray it was shown that the ulcer had completely healed in eighty per cent of the stomach ulcers and forty-five per cent of the duodenal ulcers.

Of course it must be remembered

REAL ESTATE INVESTMENTS and HOMES

that despite the healing of these ulcers there is no guarantee that they will not break down again if the diet is not carefully watched. This is the reason that surgery is often used, as patients grow tired of having to watch their food intake so carefully.

CANADA POWER RENAMED

MONTREAL, Aug. 13 (CP).—A new name has been chosen for the

new company which will succeed the Canada Power & Paper Company under the reorganization plan of the Securities Protective Commission.

The new company will be known as the "Consolidated Paper Corporation Limited."

CONSTRUCTIVE OPTIMISM

Dr. S. F. Tolmie is under no illusions about the economic conditions of the time, but in discussing them he has the habit of getting down to brass tacks and infusing into all his comments that element of optimism which is such a strong characteristic of his. He never has seen any cause for pessimism in British Columbia, and the Premier has lived and worked through a quite considerable stretch of the history of this province, of which he is a native son. He knows the lean years must come in rotation with the fat. That is simply a truism and what has happened through all recorded time. Lean years to those who have a proper perspective of events should never induce pessimism. The thing to do is to take our courage in our hands and create those conditions which will overcome handicaps and restore prosperity again. What can be done in this regard can be read in the pages of the development of this province.

There are few things the Government has set its hand to more likely to induce the prosperity sought than the campaign about to be inaugurated for the support and use of home products. The Government stands four square behind this movement. It is willing to implement it by every means in its power. It can give an impetus to the proposal of a character never experienced in any similar campaign of the past. What it is doing in this regard should prove a tonic to our industrial activity. This was one of the matters stressed by Dr. Tolmie in addressing the annual picnic of the Esquimalt Conservative Association. That address in its whole tenor was a strong, statesmanlike appeal for greater all-round co-operation in promoting better times. The figures he gave of provincial progress are the complete answer to those scaremongers who are now "shying at a shadow." It can be said of his Government that it is doing all in its power, and in a constructive way, to meet the issues of the time and to lay the foundation of a new era of prosperity.

SAVE THE TAXPAYERS' MONEY

The Select Committee at the late session of the Federal Parliament which inquired into the finances of the Canadian National Railways and the Canadian Merchant Marine deal, in the course of its recommendations, with the steamship service of the State-owned railways on this Coast. Its finding in this respect read: "Your committee further believe that the steamship service established on the Pacific Coast and known as the Triangular Service between Vancouver, Seattle and Victoria, should not have been established, as it does not earn its operating expenses. We, therefore, recommend that serious consideration be given to immediate action looking toward the elimination of this loss."

So far no step has been taken to bring about the elimination of this loss, and it is conceivable that nothing will be done until the present tourist season is ended. Then, however, the time will come to implement the committee's recommendation. It is a mild way of putting it to say that on this service the company does not earn its operating expenses. It falls very short of such a mark and earns nothing for the purposes of interest charges and sinking fund on upwards of \$6,000,000 which has been invested in the three vessels built for use in Pacific waters. The establishment of this steamship service inflicts a twofold loss. One is on the taxpayers of the Dominion and the other on the shareholders of the Canadian Pacific Railway Company. The latter lose in two ways, both through having to pay more taxes and receive reduced dividends.

The carrying into effect of the recommendation about the C.N.R. vessels on this Coast need not await the finding of any transportation commission such as is proposed to inquire into the subject throughout Canada. Action in the interests of economy can be taken without undue delay. There will be services available for these vessels, where at least operating expenses can be earned, when the Federal Government gives up State-ownership of a merchant marine. The Canadian National Railways has a large string of economies to put into practice and many of these have been long overdue. One of the most important of these is to "eliminate the loss" which is mounting all the time through its operation of steamships on this Coast.

YUKON'S REPRESENTATIVE

It was a happy choice indeed that Mr. George Black, the Speaker of the House of Commons, should have been chosen as a representative on the committee which is discussing the preliminaries of a British Columbia-Yukon-Alaska highway. It is a compliment to the Yukon, which Mr. Black has represented in the House of Commons for so many years. It is a compliment, as well, that one occupying the position he does in Parliament should have been asked to devote so much time when not actively engaged in parliamentary duties, to rendering aid towards what it is believed will eventually develop into a service of very high importance for this part of the Dominion.

Mr. Black, in the office of Speaker, has won the confidence of members of the House of Commons of all shades of political opinion. He combines those qualities and characteristics which make for high judicial acumen so essential to a successful Speakership. He has stamped his method of presiding over the deliberations of the House as one that is marked by outstanding fairness. In a long line of successful Speakers he has proved his title to being endowed with that judgment, courage and impartiality with which the office is historically associated.

Mr. Black's ability to speak on behalf of the Yukon in the matter of the North and South road which Dr. Tolmie has put in the forefront of his policies cannot be questioned. He has the confidence of the people of the Northland, knows

its transportation needs, and is persuaded that such a highway as is proposed will mean increased prosperity. The presence here of Mr. Black and the other representatives of the committee discussing the British Columbia-Yukon-Alaska highway is an earnest of another step forward towards the consummation of this project.

DOUKHOBORS AND CANADA

The seriousness devoted to the statement made by Mr. Peter Veregin that he intended to bring from 20,000 to 30,000 more Doukhobors to settle in Canada is hardly worthy of our sense of humor. The slightest thought devoted to the subject would indicate, finally and conclusively, that there are three factors which would make such immigration impossible. One is the Federal Government, the second is the Provincial Government, and the third is public opinion.

Canada's problem is to make the Doukhobors respect her laws. The only reason she has not dispensed with these Russians long ago is because the sect entered the country by arrangement, and the Government's word must be observed. Economic conditions decree more selectivity and restriction in immigration of the future than ever in the past. Mr. Peter Veregin might have saved his breath. So much space would not have been given to his remarks if these were not the dog days of news.

ONE HARBOR COMMISSION

If, as a result of the investigations of Sir Alexander Gibb into the harbors of the Dominion, there is a recommendation that there should be one Board of Harbor Commissioners for the administration of ports, it will involve a change which should save the country many millions annually. The overhead expenses of the half dozen boards which now operate at various ports are not only heavy, but excessive. The harbors in question may derive some benefits, but none in question may be decreed by a central board. Sir Alexander is now in Vancouver. Possibly he will see there reasons why a local harbor board is a luxury. There was a suggestion here some years ago that Victoria should be administered by a Harbor Commission, but fortunately the proposal was laughed out of court. The fewer dues a harbor has the better for the development of its trade, especially in these times of slackened commerce.

The London Daily Express says that "the extent to which the dole has been diverted from its first purpose remains our gravest domestic problem." Sometimes, however, diversions are punished. There is the case of a man who owns two railway coal wagons, employs several men and does a business of \$150 a month, who is serving two months' hard labor for drawing the dole. If some of those responsible for the payment of the dole illegally were also in jail the problem might be solved.

Nadir Shah of Afghanistan thinks the unemployment problem is easy of solution. He has simply decreed that idleness is illegal and must be stamped out. His Government has been ordered to take stringent measures against those who will not reform the error of their ways and go to work. This is even a more drastic procedure than the few social ideas from Western civilization which the former King Amanullah sought to introduce. He lost his throne.

Much of our economic depression is due to the fact that we have mortgaged the future too heavily. There should be a certain amendment in the financial outlook. As Sir Josiah Stamp says: "You can only pay your debt to the past by putting the future in debt to yourself."

BEAUTY ASLEEP

They are all seen, the splendid things.
The lovely songs, they are all sung.
Yet here and there a poet sings
As clear as when the world was young.

Thrice welcome then the man is he
Who walks refreshed with heavenly dew.
Since it is harder now to be
A child than when the world was new.

O, dreams were thick as flowers then,
That now are rare as minted gold.
And beauty turns to sleep again,
With tears, because the world is old.

—Doris Palthe, in The Observer.

To be seventy years young is sometimes far more cheerful than to be forty years old.—Oliver Wendell Holmes.

The cruelest lies are often told in silence.—R. L. Stevenson.

Note and Comment

By R. B. D.

A friend in need is a friend indeed—Old Proverb.

Our old friend The Inspector has gone to a far country, and our old friend Mike has gone to a farther country, but we are not altogether desolate, for The Doctor is still with us, and The Colonist drops in occasionally to tell us a humorous story. We shall never see another golf match between the Doctor and the Inspector—nobody ever will see such a golf match as we saw between the Doctor and the Inspector, nor one such marvelous stroke as was played by the Doctor to tie the score.

The winner of the epic of the links was to pay for the lunch for the players and the referee (we happened to be the referee) and the Doctor (whose friends grossly libel him by declaring that he is a "light wad") decided off-hand that under the distressing circumstances the burden of defraying the cost of the lunch should be shouldered by the referee. There was a hunch for three, but the referee did not pay for it. We do not know to this day how it did pay for it, but we have never received a bill of costs from the cheerful and hospitable secretary of the Victoria Golf Club, so the matter must have been compromised between the Inspector and the Doctor.

Notwithstanding the libel inflicted upon the good name of the Doctor, he is not Scotch. We believe he is a Canadian of the second or third generation, for in his conversation he uses terms which are of a distinctly Canadian flavor. For example, we have heard the Doctor describe his partner in bridge as a "stokin'-bottle" or the slightest thing that ever came down the creek. Such description terms are never applied in any country except in Canada or the United States.

Now the Colonel is Scotch and has a keen sense of humor, notwithstanding the libel published about his race by Sidney Smith (who was a great English wit and whose own jokes were more witty than humorous). The Colonel, then, dropped into the office a few mornings ago. The first thing the Colonel did after dropping in was to drop a coin of the smallest possible denomination upon our typewriter, and, with a twinkle in his eye, declaring that he was going to beg for a favor but that he was willing to pay for the favor. Here, he says, is something I would like to get in the paper, but as the Workmen's Compensation Board charges you a cent a day for using that thing (indicating our typewriter), you are not going to be a cent out of pocket as a consequence of any favor bestowed upon me.

The purpose of the Colonel's visit having been discharged to the complete satisfaction of all concerned (including, we trust, the thousands of subscribers who read the interesting item of news he gave us for the paper), the Colonel sat down and told us a number of stories, thrilling and humorous, about his adventures in the late war, the entry of the victorious Allied Forces into Jerusalem, and of minor incidents in the campaign in the Holy Land. But the Colonel is most interesting when he digs down in his memory and tells stories (all humorous) about the whimsicalities and idiosyncrasies of his own countrymen. At the same time, we have learned from outside sources that our gallant friend, if he were not too modest to wear all the orders and decorations he has won and to display them upon his person on ceremonial occasions, would look like a ship decked upon a holiday or like a society queen with all her jewels and gems upon her.

Thus one morning was well spent and the work of the day which followed discharged with satisfaction. All mornings and all days are not like that. It is not every day that we can perform our allotted task without being compelled to contribute to the overflowing coffers of the Workmen's Compensation Board, from the coffers of which it has been officially decreed we never can receive a cent of compensation.

Sometimes when we contemplate our position in relation to the Workmen's Compensation Board we wonder whether the chiefs of that autocratic institution use typewriters in their business and whether they contribute a cent a day out of their munificent salaries to the coffers they guard so jealously. But of course it is ludicrous to indulge in such fantastic speculations. The members of the board are too lordly in their views to do anything which involves manual labor. They have their secretaries, and we wonder whether those minions are compelled to pay a cent a day as a tax upon the dangerous machines they use in their business. The absurdity of the situation was fully revealed by our humorous friend when, with a twinkle in his eye, he placed a cent upon our typewriter and declared that he always paid his way and was determined that he should be under no obligations to us.

In principle the Workmen's Compensation Board is a beneficent institution. It has accomplished a great deal for the benefit of workmen.

THE COLONIST IN LONDON

The Colonist may be procured at the International News Stand of Messrs. Selfridge & Co., Oxford Street.

men, but sometimes we think it has accomplished a great deal more for the benefit of the autocrats of the board, who did not toll very hard nor spin very industriously (except in a political sense) before they secured positions of comparative ease and affluence.

Letters to the Editor

No letter to the Editor will be inserted except over the proper signature and address of the writer. This rule admits of no exception.

CIVIC BEAUTIFICATION

Sir.—The Capital City Beautification Committee has been reorganized and has directed me to communicate with you and invite the public to submit to the committee, in writing, any suggestions as to important improvements that could be made in the district towards the permanent beautification of the capital of this great province.

It is the intention of the committee to consolidate all the suggestions offered into a definite plan and then submit them to the proper authorities with recommendations. Several proposals have already been received and any suggestions from the public will be deeply appreciated by the committee.

CAPITAL CITY BEAUTIFICATION COMMITTEE

George I. Warren, Secretary,
P.O. Box 608, Victoria, B.C., August 12, 1931.

CITY RELIEF OFFICER

Sir.—It is reported that the Mayor made the following statement:

"This is humorous," Mayor Anson said. "It is very humorous, because the secretary of this organization is moving heaven and earth to try and get a job as city relief officer."

The letter referred to was a letter written by the secretary of the Ratepayers' Association and not as a personal letter by the secretary. It is a pity that the Mayor should have taken personal offense and so lessen the dignity of his office in his attempt to ridicule the poor secretary, even if it were true that he was trying to get a job under the city.

I don't see any difference between this and Mr. Anson moving heaven and earth to get a job as secretary of the city or the rapidly growing strength of foreign elements in the Middle West (Canadians in name only), it would be an excellent plan for the Dominion Government to declare, through legislation, a Canadian holiday against the intrusion of any more immigrants except those of British stock for a period of, say, five years, thus to insure having a larger and safer majority of its inhabitants who intend that this fair country shall remain one of the strongest bonds of the Empire.

BEAUTIFYING VICTORIA

Sir.—Will you grant me the freedom of your columns to express a few suggestions on the above. I must admit that with my experience of public affairs, I am afraid I am too practical to enthuse over much on such ideas as beautifying a "Greater Victoria," dreams of a glorious and advanced Government, in these days when all Governments all over the world are most uncertain quantities, their expenditures increasing and means of revenue decreasing, and with the possibility that at the most vital moment some outside municipality might be puffed and upset the entire project, perhaps very much to the satisfaction of the politicians.

The question, however, of "Beautifying Victoria" and developing our present assets, by and with the co-operation of each and all of our citizens, is something that should be a life-long aspiration of every resident of this fair city.

Today I propose to deal with two of our best assets and later on follow up with other suggestions—"Sooke Lake Water Supply" and "Beacon Hill Park." At Sooke Lake we have a water supply for 200,000 people, but we need that water in Victoria. Our present city mains apparently are not large enough, and most certainly we have not sufficient mains in and around Beacon Hill Park. I have recently met citizens who gladly moved heaven and earth to give \$30,000 worth of water over a period of years to a deserving company to wash dirty linen, but my same friends would die of heart failure if you suggested to them to spend a like amount of money upon Beacon Hill Park, a place of infinite beauty and a reflection of the Creator's smile.

Most certainly our electric light system should be extended throughout the park, and I have heard persons attending our evening band concerts state that they must leave before the concert closed, owing to the roads through the park being so dark at night.

Mr. Editor and my readers, I am no dreamer, but I ask you to visualize a Beacon Hill Park having a plentiful water supply, gloriously green for nine months of the year, scientifically laid out, with beds of flowers matted, beautiful fountains, conservatories, a glass concert hall, etc., and all the park area well lighted at night.

What an asset from a tourist city point of view; what a joy to all clean-minded citizens; what an uplift to those who rejoice in helping nature to be at her best.

Here is something right at our hands, and our very own. Let us have the courage to develop our assets, and let us have some outside bodies to play the part of fairy godmothers. May we lay hold of the essence and not the shadows of our objective.

In conclusion, I would add that during my years of service I have upon every occasion supported all

FIFTY YEARS AGO TODAY

(From The Daily British Colonist of August 14, 1881)

Secrets of Labor—Haver in the history of British Columbia has labor, both white and Chinese, been so difficult to procure at the present time. Railroad contractors at Yale, the cannery establishments on the Fraser, the drydock at Esquimalt, and the farmers are all calling out for labor. That the Chinese in town are busy, numerous as they are, no better proof is required than the great number of wood piles of all sizes in every part of the city, that are waiting for the black saw and axe. Until recently, a Chinese man on the beach for a cord of wood and would follow a load to its destination on the chance of getting the job of cutting it. Now, however, it is quite different, and they act as though they were conferring a favor by sawing wood under any circumstances.

Steamer Overdue—Yesterday afternoon the mail steamer Dakota was reported this side of Race Rocks with her flag hoisted, but the steamer Rita White went outside and returned, reporting that the Dakota was not in sight. She went out again in the evening, but without finding the vessel.

Furniture of Genuine Walnut

Do not count your search for a dining-room or bedroom suite finished until you have seen the display of Gilbert's genuine walnut furniture at this store. The styles are correct adaptations of popular period designs, and although the quality of workmanship is infinitely superior the prices are amazingly moderate. See this display and use your own judgment of beauty, quality and VALUE.

Exchange Your Old Range For an All-Enamel BURBANK

GET RID of your old, fuel-wasting range and bring your kitchen up to date with a colorful, all-enamel Burbank Range. It is a step towards comfort and economy that calls for no immediate cash outlay . . . we accept your old range at a liberal valuation as a first payment, and the balance can be arranged to suit your convenience.

See the "Burbank" and "Bakerite" Ranges here this week. Choice of all-enamel or semi-enamel finishes in colors of white, ivory or blue.

RoToR

The Furnace Without Grates

Burns Cheap Pea Coal and Cuts Fuel Bills Tremendously!

The RoToR Furnace, without the old-fashioned grate, is the first real furnace improvement in years. You save 12.50 to 15.00 a ton on fuel by using the cheapest pea or slack coal, and with the far greater combustion efficiency of the RoToR principle you can really reduce heating costs fifty per cent. See the RoToR demonstration here today.

HESITATE OVER GERMAN VISIT

French Statesmen Doubt Whether Trip to Berlin Would Produce Results

By PAUL SCOTT MOWBRAY
(Copyright, 1931, by The Chicago Daily News Foreign Service)

PARIS, Aug. 13.—The German suggestion that French Premier Pierre Laval visit Chancellor Heinrich Brüning and Foreign Minister Julius Curtius in Berlin at the end of this month for the purpose of pursuing the conversations already begun on the possibility of a Franco-German understanding is causing some hesitation here.

The French certainly want to do all possible to consolidate the position of the Brüning Government. They believe, however, that the Germans want to include the question of financial aid to Germany and the reparations and disarmament problems in these talks.

The French, on the contrary, feel that the possibility of the Brüning Government's coming to terms with Alfred Hugenberg and his Nationalists in the near future makes it useless to discuss for the present both financial and political questions, the financial because, until the German crisis develops somewhat, it would be premature, and the political because the French are convinced that, in the present state of opinion of both countries, no satisfactory political arrangements are possible.

ECONOMIC UNION
What France, therefore, proposes is a Franco-German economic agreement along the lines of M. Briand's United States of Europe idea, with a careful allotment of foreign markets, restriction of production under a wider system of international cartels, and adjustment of the exchange of goods between agricultural and industrial states.

In the back of the French mind is the persistent hope that these measures, by gradually restoring prosperity to Europe, would of themselves diminish the importance of political agitation and bring about a stable and peaceful Europe within the present frontiers.

LAKES STOCKED WITH TROUT FRY

VERNON, B.C., Aug. 13.—Kamloops trout fry have been put in the following Okanagan lakes: Sugar Lake, Mabel Lake and Kalamalka Lake, 30,000; Osoyoos Lake, Skaha Lake, 22,000; Vaseux Lake, Davie Lake, 16,000; Woods Lake, Chute Lake, Vale Lake, Ashnola Creek, Fish Lake and Frambo Lake, 10,000.

The distribution of trout fry in Okanagan Lake will be made from points near Kelowna and Summerland and will be about 190,000 in number when completed. The amount of fry planted this year is nearly double that of last year, and all the fry have been developed at the Penticton and Summerland hatcheries. The quantity distributed in each lake is determined by the size of that lake and the number of fish in it. Thus, large lakes which are comparatively well stocked, may sometimes secure less fry than smaller lakes which have been depleted.

What Today Means
"LEO"—If August 14 is your birthday, the best hours for you on this date are from 9:10 a.m. to noon, from 4 p.m. to 5:15 p.m., and from 8 p.m. to 10:05 p.m. The danger hours are from 12:45 p.m. to 2:10 p.m. and from 6:20 p.m. to 7:30 p.m.

Nothing of importance can be expected to happen on August 14 according to astrological premonitions, but minor helpful influences will make life easier. Tact will be needed in order to avoid family differences. Uncertainty and indecision will prevail. Stick to routine!

Children born on this August 14 will possess indomitable spirits, and neither in study nor in play will they admit defeat. Intellectual, resourceful and far-sighted, this courage will prove to be of inestimable value to them in adulthood, and marked success awaits them.

You, if born on August 14, have always had a strong desire for power, and a keen longing to exercise it. You possess many of the qualities of leadership, but lack a proper sense of justice. Once, too, you convince yourself of the wisdom of a certain course, it becomes an obsession, and you pursue it, willy-nilly, to the bitter end. You are quite self-centred, and rather ignore the rights of others. You are impatient, and cannot tolerate criticism or reprimand. The signs say that you, in the course of your life, and as a result of your "bossy" ways, will have many bitter pills to swallow. This will be all to the good, as a more humble spirit will evolve from discipline.

You are rather Bohemian in your tastes, and have a liking for all the good things in life. You are fond of society—more fond of it than it is of you. You have great determination of character, a fair amount of intelligence, but little sense of proportion. Until you are able to see yourself as others see you, life will not have many rewards in store for you.

The opposite sex possesses great attractions for you, and this is one of your weaknesses, as infatuation is destined to upset, more than once in your life, plans carefully made and projects nearly completed.

Papal Secretary Asks to Resign

VATICAN CITY, Aug. 13 (AP).—Semi-official confirmation of reports that Cardinal Pacelli is to resign as Papal Secretary of State came from the Vatican today.

He has sought the Pope's permission, it was said, but the Pontiff asked him to wait until the difficulties with Italy over the Catholic action organization are settled.

Vernon Is Source Of New Story of The Three Bears

VERNON, Aug. 13.—A story of three bears—grizzlies—and one overworked trap was told here by R. A. Davidson on his return from trip to Munter's Range in this district.

He first found a great grizzly roaring to the skies and splintering the logs in an effort to get free from a trap which had been set to protect sheep from bruin depredations.

Later the same day he found a yearling grizzly in the same trap, without even bait to attract it. Next morning Mr. Davidson took a last look and another young bear was imprisoned. All three animals were shot.

MUSEUM OPEN FOR LECTURE

University of Oregon Students Hear Dr. Goldenweiser, Noted Biologist

Attending at the Provincial Museum last evening, W. A. Newcombe, assistant biologist, placed the facilities of the institution at the disposal of Dr. Goldenweiser, who is one of the noted biologists of the University of Oregon Summer classes, all of whom arrived in the city aboard the liner *Ss. Admiral Rogers* on their way to Alaska.

Dr. Goldenweiser, who is professor of biology at Columbia University, and international renown, and is now conducting a special course at the University of Oregon, took the opportunity of delivering a lecture while here, which occupied an hour and a half.

Of the greatest interest, and one of the finest collections he has ever seen, Dr. Goldenweiser placed on the turning of the *Victoria*, when he will spend some time among the treasures which the Government of British Columbia has gathered in its museum.

Obituary

HUDSON.—The funeral of Mrs. Sarah P. Hudson, beloved wife of John Hudson, chief engineer of the *Ss. Princess Maquinna*, took place yesterday afternoon at 2 o'clock from the Sands Funeral Chapel. The impressive service, conducted by Rev. J. S. Patterson, was largely attended by relatives and many sympathizing friends.

The numerous beautiful floral designs belokened the high esteem of respect in which the deceased was held. The hymns sung were "Peace, Perfect Peace," and "Lead, Kindly Light." The following acted as pallbearers: J. F. Errington, Stan Hobbs, W. F. Tickle, W. F. Loveland, W. North and E. Davis. Interment was made at the Royal Oak Burial Park.

LABERGE.—The funeral of Joseph Laberge, whose death occurred on Tuesday at the St. Joseph's Hospital, will take place this morning, the cortege leaving the Sands Funeral Chapel at 9:40 o'clock, and at 9 o'clock mass will be celebrated at the Church of Our Lady of Peace at Esquimalt, Father G. A. Gaudet officiating. The remains will be laid to rest in Ross Bay Cemetery.

FELSTEAD.—The funeral of William Felstead took place yesterday afternoon, proceeding from McCall Bros. Funeral Home to First United Church, where service was conducted by Rev. W. G. Wilson, D.D., assisted by Rev. Bruce Gray. During the service the hymns, "Unto the Hills Around" and "Nearer, My God, to Thee," were sung. Alfred Gurney presiding at the organ. Interment was made at Ross Bay Cemetery, with the following as pallbearers: Alderman W. T. Straith, D. A. Fraser, R. G. Howell, J. G. MacParlane, J. Strang, and G. McGregor.

MARTIN.—Funeral service will be held this afternoon over the remains of Mary Martin, the cortege leaving the family residence at 2 o'clock, proceeding to St. Paul's Church, Esquimalt, where service will be conducted by Rev. F. C. Chapman at 2:15 o'clock. Interment will be made in Ross Bay Cemetery. Hayward's B.C. Funeral Company has charge of the funeral arrangements.

TRIPP.—The remains of Ethel Jane Tripp will be laid to rest this afternoon, the funeral taking place from Hayward's B.C. Funeral Co.'s chapel at 2:30 o'clock, with Rev. Clem Davies officiating. Interment will be made in Royal Oak Burial Park.

BROKERS' LOANS DECLINE

WASHINGTON, Aug. 13 (AP).—Loans to brokers and dealers held by New York Federal Reserve member banks for the week ending Aug. 12, 1931, were \$1,229,000,000, as compared with \$1,229,000,000, representing a decrease of \$17,000,000 as compared to the preceding week. The loans for the week ending August 13, 1930, were \$3,155,000,000.

SUMMER RATES HOTEL STEWART

The Hotel Stewart, centrally located, close to the theatre and best known, offers high class accommodations at very moderate rates. Excellent meals. Single \$12.00, double \$15.00, breakfast 60c. Sunday 75c. Dinner \$1.00, Sunday \$1.25. Write for booklet folder giving rates and listing the sights to see in and around.

SAN FRANCISCO

FATHER OF SIX ASKS FOR HELP

Unemployed Fund Committee Told of Need of Assistance This Winter

A picture of life on \$24 a month, as lived by an unemployed father of six children, between the ages of one and twelve years, was presented to the committee of the Victoria Citizens' Unemployed Fund, in plain figures, yesterday. Rent accounts for \$12, leaving a similar amount for all the needs of eight persons which works out at forty cents a day, or five cents a day for each person.

"We might 'get by' on that," the visitor said, "if light, water, fuel and clothing had not to be considered. As it is we eat when we can, and when we can't, we go hungry."

"The problem is a simple one today compared with what it will be in a few months," he continued. "The children can go bare-footed this winter, but it will be another story when winter comes. They will need warm clothing, too. Any little thing does for summer wear, but unless warmer clothing is forthcoming, there may be no more summers for them."

"Then there's fuel; that's a big item in winter, and more food is required. Unless work is increased so as to enable us to earn more than \$24 a month, help must be given, otherwise many of us will not 'pull through' to the spring. More than 850 Victoria families are in the same predicament," Fred Landberg says, "and we have got to do what we can to help them. Unless warmer clothing is forthcoming, there may be no more winters for them. I would be glad if every one willing to help will call at headquarters. View and Broad Streets, or telephone G-4000, 1725." Contributions may be left at the above address or with the treasurer, E. C. Smith, City Hall.

A new machine in London prints 50,000 railway tickets in an hour.

New South Wales May Be Aided by Big English Bank

SYDNEY, Australia, Aug. 13 (CP).—Suggestions that one of the big English banks should come to the aid of the Labor Government of New South Wales, which is in serious financial difficulties, are being discussed, according to The Sydney Telegraph. It is reported the Midland Bank of London has made offers to the New South Wales Government and also to the State Savings Bank of New South Wales, a Government institution which closed its doors last April.

CITY ROTARIANS GREET VISITORS

Representatives From Port Angeles, Anacortes and Everett Guests at Luncheon Here

Members of the Rotary Clubs of Anacortes, Port Angeles and Everett, accompanied by their wives, were guests of the Victoria Rotary Club at luncheon in the Empress Hotel yesterday.

After the usual toasts of "The King" and "The President of the United States," Miss Isabel Crawford, soprano, rendered a vocal number which was warmly applauded. Introductions were made by Alfred Carmichael, and among those at the speaker's table were Thomas Myers, William Moore and Julius Kersburg, from Port Angeles. President Percy Watson welcomed the visiting Rotarians, remarking how much he and Secretary Goodlake appreciated the courtesy and entertainment of the Bellingham club when they visited there last week, and emphasizing the value of these meetings from the point of view of promoting international friendship and individual comradeship.

The proceedings were enlivened by an amusing address by Julius Kersburg, of Port Angeles, who declared the Victoria club was the mother of the Port Angeles branch, intimat-

ing he was willing to leave the entertainment of the Anacortes and Everett brethren to local Rotarians. Harold Joly, of Everett, sang "The Trumpeter," and a relay of Amos 'n' Andy—with variations, from Robert R. Webb, V. Clarke and Norval Peterson, formed the conclusion of a happy family party.

Arrangements were made by the local club for sightseeing and entertainment of the visiting Rotarians.

CHICAGO DAILY NEWS CHANGES OWNERSHIP

By Staff Correspondent
(Copyright, 1931, by the North American Newspaper Alliance, Inc.)

CHICAGO, Aug. 13.—Frank Knox today became president of The Chicago Daily News, Inc., and publisher of The Daily News.

Mr. Knox becomes publisher of The Daily News through purchase of the controlling stock held by the late Walter A. Strong. In the purchase Mr. Knox is associated with Theodore T. Ellis, of Worcester, Mass., who becomes vice-president of The Chicago Daily News, Inc.

COTTON PLANT TO CLOSE

FALL RIVER, Mass., Aug. 13 (AP).—The 2,500 employees of the cotton division of the American Printing Company were notified today the plant would be closed for an indefinite period, effective next Monday.

Nathan Duffee, vice-president, said the long depression in the textile business was made worse by the drop in the cotton market, which followed announcement of the crop estimate by the Government last week.

LIFE OF GIRL SAVED

AFTER TWENTY-ONE DAYS IN RESPIRATOR

NEW YORK, Aug. 13.—Little

Sale Louise Dalton, ten years old,

was taken from the respirator

where she had lain for twenty-one days. Physicians said

the child, paralyzed from the neck

down, was out of danger. Three

NEGLECTED TO REPORT

Coastguard Officers Court-Martialed for Overlooking Brother Officers' Faults

SEATTLE, Aug. 13 (AP).—The

four coastguardmen on trial here

before a court-martial for "neglect

of duty" were revealed today as

Lieut. James A. Hirschfeld, Lieut.

Reginald H. French, Lieut. (Junior

Grade) Carl G. Bowman and Ma-

chinist Zina R. Schoen, after head-

quarters at Washington, D.C., or-

dered the trial made public.

Drunkness on the part of some

officers and failure to report drunk-

ennes on the part of others con-

stitute the charges. The court-mar-

tial began yesterday behind closed

doors. The accused men were at-

tached to the coastguard cutter

Tallapoosa at Juneau, Alaska.

THROWN OPEN

Coastguard headquarters at

Washington, D.C., today directed

Captain Eugene Blake, Jr., of San

Francisco, president of the court-

martial, trying three officers of the

cutter Tallapoosa here on charges

of "neglect of duty," to throw the

trial open to the public.

The court announced, however, it

was not ready to disclose the names

of the accused because of "great

embarrassment" to those officers

which would result from the pub-

licity. The trial began yesterday.

Almost twenty witnesses, both

commissioned and warrant officers,

and enlisted men, waited outside

the court-martial room during pro-

ceedings.

CAMERA SHY

When photographers set up their

cameras to snap a picture of their

officer, an officer showed a command

and the contingent ran at double time

into a washroom. Commander Clarence

Bench, of the Tallapoosa, followed

them, and he and his men remained

belegged in the washroom for about

half an hour, while other officers

argued with the photographers that

taking pictures of coastguard com-

manders was "simply not done."

TEACHERS WILL ARRIVE TODAY

British Principals and Head-

mistresses to Spend Four

Days on Island

W. H. Muncy and a committee

representing the Victoria Teachers'

Association have arranged enter-

tainment for the party of sixty-nine

British principals and head-

interest in route and nearby, in-

cluding the Chemainus mill.

As guests of Nanaimo City, the

Victoria Lumber & Manufacturing

Company, and the Vancouver Island

Transportation Company, they will

spend the entire day between here

and Nanaimo, and at 8 o'clock in

the evening will attend a dinner

being given in their honor by the

Provincial Government at the

Legislative Buildings. The archives

will be visited after dinner.

Billie Burke to Come Next Month

In addition to the names pub-

lished a few days ago of actors who

are to appear at the Royal Victoria

Theatre during the coming season

is that of the noted American ac-

tress, Billie Burke. Clifford Den-

ham, manager of the local theatre,

said yesterday that the actress would

be here on September 28 and 29

with "The Vinegar Tree."

Although born in Washington,

D.C., Miss Burke was educated in

French and English schools, and

made her debut as a singer at the

Pavilion Music Hall in London in

1902 as Edna May's support in "The

School Girl." She had a long list

of successes in London, appearing

in "The Duchess of Dantzig," "The

Blue Moon," and in 1906, "The

Belie of Mayfair." The following

year she had her first dramatic en-

gagement as leading woman in "Mr.

George," and "Mrs. Pondebury's

Past," and the same year she was

engaged by John Drew to go to

America as his leading lady in "My

Wife." She has acted chiefly on

the continent, and at 8 o'clock in

the evening being a great favorite on

the screen.

SAFETY LEAGUE CAMPAIGN ENDS

Test Lane in City Handled

1,079 Automobiles—Pas-

senger Buses Perfect

Victoria's Safety Lane test for

automobiles was one of the most

successful to be held in this prov-

ince, Percy C. Abell, manager of the

British Columbia Safety League, an-

nounced last night at the conclusion

of the campaign here.

"We handled 1,079 cars through

the lane during the three days,

which is a most encouraging sign

that the public is taking an interest

in the safety of the roads," Mr.

Abell declared.

"We tested twenty-one of the

Vancouver Island Coach Lines

buses and the British Columbia

City and District

Will Attend Parley—R. F. Blandy,

clerk of the Municipality of Oak

Bay, will attend the convention of

the Union of Canadian Municipal-

ities, which will be held at Vernon

on September 10 and 11.

On Tour to Alaska—Miss N. Pol-

lard and party, on an Alaskan tour,

reached the city yesterday from

Seattle. They will leave Victoria

today for Vancouver and will con-

tinue the trip to Alaskan points.

More Goods Found—Provincial

Police announced yesterday that

they had discovered more alleged

stolen goods near the mountain

cave at Goldstream. A golf outfit

and automobile parts were brought

into the city and identified.

Rotary Delegate—President Percy

Watson, at yesterday's luncheon

session of the Victoria Rotary Club

in the Empress Hotel, announced that

Rotarian Norman Rand had been

appointed as the club's representa-

tive on the Capital City beautifica-

tion campaign committee.

Holt Is Sought—The city detective

bureau has been asked to locate the

heir to an estate left by Francis

J. Walker, a Canadian who died in

the United States. Solicitors for

the estate believe that the deceased

has a brother or children of a

brother residing here.

Believed Drowned—Failure to find

any trace of Oleson Bjornstern,

noted horticulturist, who has been

missing from his Curlew Island

home since July 17, has led police

to believe that he was drowned. A

patrol of the straits has failed to

find his body or any trace of him.

Revolver Contest—Detective T.

Harvey Bamford won third prize in

the New Westminster police revolver

contest on Wednesday. Competitors

Walter Calwell, William Stark and

Bamford were fourth in the team

shoot. Detective Bamford turned

in a score of 14 out of a possible 60

in the individual shoot.

Advertising Fair—The Victoria

and Island Publicity Bureau is send-

ing out letters to various organiza-

tions that may be likely to become

interested, calling attention to the

Fair Exhibition and the races at

Victoria shortly. The bulletin is-

sued by the bureau urges attendance

at these attractions in Victoria.

Oak Bay Residence—A permit for

the erection of another residence in

Social and Personal

Personals, Parties Visitors

Entertain at "Hillhaven"

Mrs. C. P. Hill entertained at "Hillhaven" yesterday afternoon in honor of her sister, Mrs. G. H. Stewart, of Ansox, and Mrs. John R. Totten, of New York, at a bridge and mah jong party. A few additional guests arriving at the tea hour. A great crystal bowl filled with rose-shaded dahlias centred the tea table, which was presided over by Mrs. J. A. Macdonald and Mrs. B. de Mossin. Dahlias in shades of yellow and bronze were arranged in the hall, and petunias, wisteria and dahlia in delicate colorings were placed in the card rooms with charming effect. The invited guests included Mrs. J. H. King, Mrs. J. H. Gillespie, Mrs. J. W. Benning, Mrs. J. G. Austin, Mrs. D. H. Hunter, Mrs. J. W. Lennox, Mrs. F. Jones, Mrs. A. C. Burdick, Mrs. Lorne Campbell, Mrs. J. W. Troup, Mrs. T. Rickard (California), Mrs. A. G. Bolton, Miss K. Agnew, Mrs. R. W. Gibson, Mrs. J. Morris, Mrs. J. H. Gillespie, Miss M. Galt, Mrs. R. H. Pooley, Mrs. Hermann Robertson, Mrs. Wesley Davidson, Mrs. D. R. Ker, Mrs. T. S. Gore, Mrs. Rose (California), Mrs. P. W. Hartley, Miss G. Irving, Mrs. Arthur K. Mitchell, Mrs. L. G. Boyd, Mrs. R. P. Butchart, Mrs. E. G. Prior, Mrs. E. F. Pooley, Mrs. L. Galt, Mrs. A. D. Bechtel, Mrs. H. Eberia, Mrs. D. Laird, Mrs. J. M. Hedley, Mrs. Lennox Irving, Mrs. Durand, Mrs. F. D. Little and Mrs. J. S. C. Fraser.

Party for Visitor

Mrs. Brownie Wingate was a charming hostess this week in honor of Miss Thora Petch, of Vancouver. The party was held at the Summer home of her parents, Cap-

tain and Mrs. Wingate, Shawinigan Lake. It took the form of a swimming and dancing party, those invited being Misses Gertrude McDonald, Muriel Thomson, Margie Gilliland, Betty Maguire, Ruth MacTavish, Doris Scott, Betty Goude and Betty Byrd, Messrs. Ted Colgate, Alf Hood, Bob Davidson, Don Baker, Alan Baker, John MacTavish, Morris Grossman, Campbell Logan, Grenfell Allen, Bill Cuzner, Bryan Benwick, Bob Poyntz and Rod Wingate.

Motoring Up-Island

Dr. and Mrs. A. T. Rickard, of Berkeley, California, who are spending a few weeks on the island as guests at the Oak Bay Hotel, are at present motoring up-island accompanied by Dr. and Mrs. E. A. Bryant, of Los Angeles. Dr. Rickard is one of the leading mining engineers of America, and is also an author of several important technical and historical books on the subject. He is spending much of his time at the Provincial Library engaged in research work. Dr. Bryant is a well-known surgeon of Los Angeles.

Washington Visitor

Miss Agnes Winn, of the American Federation of Teachers headquarters office, Washington, D.C., passed through the city a few days ago en route from Seattle, where she has been visiting her sister, Miss Bertha Winn, formerly a well-known member of the Victoria teaching staff, to the American capital.

Entertainment Given

Mr. and Mrs. Alfred Flood, Windsor Road, entertained recently in honor of Miss Sheila O'Neill, and Mr. Harold Bassett, whose marriage will take place in the near future. In the afternoon a "show" was held for Miss O'Neill, and in the evening dancing was enjoyed by a few friends.

Married in Calgary

Of interest to Victorians will be the announcement of the marriage in Calgary on Tuesday, June 30, of Miss Mary Elliott, daughter of Mr. and Mrs. G. B. Elliott, R.E. (retired), and Mrs. Elliott, formerly of Currie Road, Oak Bay, to Mr. Phillip Ray Wilkinson.

Arrives From Hollywood

Mrs. Tiny Monteth arrived from Hollywood last night by the St. Emma Alexander on a holiday visit to her relatives in Victoria. She is

at present the guest of her brother-in-law and sister, Commander and Mrs. R. L. Agnew, at the R.C. Naval Barracks.

Leaving Tomorrow

Mrs. D. C. Macdonald, of Vancouver, who has been visiting Miss Alma Russell, at 27 Boyd Street, for the past week, is leaving tomorrow for Courtenay, accompanying Dr. and Mrs. MacNaughton, who are motoring up the island.

Will Visit Hill Island

Mrs. W. G. Colquhoun, Mr. and Mrs. D. L. Gillespie, Mr. and Mrs. G. C. Holland, Mr. Lorne, Miss L. Ogilvie, Miss S. Spencer and Major Chambers will spend the week-end on Hill Island.

Yacht Club Dance

Parties are being made up for the flannel dance to be held on Saturday at the Royal Victoria Yacht Club in connection with the weekly regatta of the club. Dancing will continue from 9 till 12 o'clock.

Visiting Here

Mr. and Mrs. Wilfred Lemon, of Vancouver, are in the city for a few days, completing their tour of Southern America and are the guests of Mr. and Mrs. Trenchard-Clark, Yale Street.

Tea Hostess

Mrs. Esther Alexander entertained a number of friends at tea yesterday afternoon at her home on South Turner Street. Miss Alexander will leave shortly for London.

Returns From South

Miss Elizabeth Thompson has returned to Victoria after a visit to friends in Portland and California. She is the guest of Mrs. G. E. McCulloch, Woodlawn Crescent.

Guests at Shawinigan

Mrs. Vivian Lamb has returned from a visit to Miss Beryl Nelson at Shawinigan Lake, and Miss Rosalind Pease is now Miss Nelson's guest for the week-end.

Returns to Victoria

Mr. and Mrs. Stanley Edwards (nee Silk), have returned to Victoria and have taken up residence at 227 Craigflower Road, Victoria West.

Visiting at Gordon Head

Dr. N. Ellen Douglas, of Winnipeg, and her niece, Miss Ellen Walker, arrived yesterday morning to visit Colonel and Mrs. A. W. Woods, Gordon Head.

Leave for East

Mr. and Mrs. A. Marden, of the Equilmalt & Nanaimo Railway, have left Victoria on an extended trip to Montreal, New York, Boston and other points in Massachusetts.

To Be Married Next Month

The marriage of Miss Jessie Victoria Stewart, Taylor Drive, and Mr. George Taylor will take place on September 8.

To Go Up-Island

Dr. and Mrs. Allan Fraser are leaving today for Qualicum Beach, where they will be the guests of Mr. and Mrs. Jack Nichol.

Returns to Mainland

Mrs. Alfred Bowser, of Montreal, who has been visiting relatives in Victoria, has returned to the Mainland.

From Oakland

Mrs. Robin Forbes, of Oakland, California, has arrived to visit her parents, Mr. and Mrs. T. H. Laundry, Beach Drive.

From Kelowna

Mr. and Mrs. C. B. Winter and Miss Mona Winter, of Kelowna, will arrive tomorrow to spend a holiday here.

At "Craigville"

Miss Isabel Todd, of Vancouver, is spending a few days in the city and is staying at "Craigville."

At Union Bay

Mr. and Mrs. Ray Castle and their little daughter, Tina, are spending a week at Union Bay.

Tofino

A benefit vaudeville show was staged by the community in the Canadian Legion hall when all Tofino and Clayoquot district turned out to be entertained by local talent. After the opening musical number the program commenced with a humorous sketch, "School Days," with Rev. J. W. Leighton taking the part of a relief school teacher with a dozen of the younger set of Tofino in the roles of unruly pupils. Mrs. J. Mitchell and Mrs. Hadden-Smith, of Duncan, sang several songs, and Mrs. A. McCall recited and members of the ship's company of the survey ship Lillooet gave a clever musical sketch. Messrs. R. Brinkman and McAllister "brought the house down" in an amusing restaurant scene, while the big feature of the evening was "The Fashion Show," cleverly staged and directed by M. T. Hadden-Smith, in a mannequin parade displaying all manner of gowns from the year "one" to the present day.

The following assisted in staging the show: Messdames B. Armet, T.

Armet, G. Nicholson, the Misses Thelma and Alma Hansen, Margaret Hansen, Clara Erickson and Messrs. V. Madden, O. Hansen and Joe Macleod, while Major George Nicholson acted as master of ceremonies. The remainder of the evening was spent in dancing, and supper was served at midnight.

Clubs and Societies

Wilkinson Road W.M.S.

The monthly meeting of the Wilkinson Road W.M.S. was held at the home of Mrs. J. A. Grant, Royal Oak, with Mrs. Kinnaird in the chair. The devotional period was taken by Mrs. W. J. Jones and Mrs. E. Etheridge. Reports of heralds and secretaries were given and Mrs. Nott gave a most interesting paper on the study book, "Fruits of Christian Missions in Japan." At the close of the meeting refreshments were served by the hostess, and a social time was spent.

Sooke M.S.C.C.

The regular monthly meeting of the W.A. to the M.S.C.C. of the Holy Trinity Church was held at "Dunroven," the home of Colonel and Mrs. Schriber. The Hon. Mrs. Bowen-Cuthbert presided. Pina arrangements were made for the annual Summer sale, which will be held in Sooke Hall, this evening at 8 o'clock. Besides the usual hand-made articles and home cooking, a short programme will be given. Those present were the Hon. Mrs. Bowen-Cuthbert, Mrs. Schriber, Meadames Cooke, Neary, McBride, Hawkins, Protheroe, Robertson, Ellet, Burdun, and Miss Protheroe.

Pythian Sisters

The Pythian Sisters will meet on the first and third Tuesdays of the month at Matt's Hall, Douglas Street, at 8 p.m. All visiting sisters will be welcomed.

WOMAN, 71, FOOTBALL FAN

England's oldest football fan, Mrs. M. Martin, a widow of seventy-one, recently traveled 660 miles from her home at Tunbridge Wells to Carlisle to see the Turnbulls and Wills play championship game with Carlisle United. In spite of her roiling, Tunbridge lost.

CULBERTSON on CONTRACT

by Ely Culbertson

World's Champion Player and Greatest Card Analyst

GOOD-BYE SLAM AND FARE-WEEL GAME

Even Contract furnishes its comic relief. The misplay of our partners and the bulls of our opponents are the ever-recurring topics of conversation wherever Contract is played. Of course, we ourselves do not make any mistakes. It is interesting, however, when a leading authority, one who has written many volumes on how to play, proves to the world that he can make the same errors as less famous human-kind. Today's hand was played in a duplicate contract game at the Knickerbocker Whist Club in New York.

The holders of the hands, designated North and South, are both famous players, and it is only because I wish them to retain that fame that I don't give the names. It was in the early days of contract, and the partners were wedded. In the convention which provided for showing the control of a suit by bidding, either when void of it or holding the Ace. The hand was:

North: ♠ 6 5 4, ♥ A 7 3, ♦ J 10 8 3 2, ♣ K Q J 10 9 8 7 6 5 4 3 2. South: ♠ A K Q J 10 9 8 7 6 5 4 3 2, ♥ K 5 2, ♦ A Q 3, ♣ K 2.

The Bidding

(Numbers after bids in table refer to numbered explanatory paragraphs.)

South East North West
3♥ Pass 3♠(1) Pass
3NT Pass 4♠(3) Pass
Pass(3) Pass

For a heart bid, but felt that he should first show his six-card suit in response to South's forcing opening bid.

3-Here the trolleys are crossed. Even using the Ace-showing convention, a void suit should not be bid until a trump has been agreed upon. The hand had not yet reached an agreement on the trump.

3-The player in the South was visibly puzzled. His words were in the early days of contract, and the partners were wedded. In the convention which provided for showing the control of a suit by bidding, either when void of it or holding the Ace. The hand was:

North: ♠ 6 5 4, ♥ A 7 3, ♦ J 10 8 3 2, ♣ K Q J 10 9 8 7 6 5 4 3 2. South: ♠ A K Q J 10 9 8 7 6 5 4 3 2, ♥ K 5 2, ♦ A Q 3, ♣ K 2.

The bidding:

South East North West
3♥ Pass 3♠(1) Pass
3NT Pass 4♠(3) Pass
Pass(3) Pass

For a heart bid, but felt that he should first show his six-card suit in response to South's forcing opening bid.

3-Here the trolleys are crossed. Even using the Ace-showing convention, a void suit should not be bid until a trump has been agreed upon. The hand had not yet reached an agreement on the trump.

3-The player in the South was visibly puzzled. His words were in the early days of contract, and the partners were wedded. In the convention which provided for showing the control of a suit by bidding, either when void of it or holding the Ace. The hand was:

North: ♠ 6 5 4, ♥ A 7 3, ♦ J 10 8 3 2, ♣ K Q J 10 9 8 7 6 5 4 3 2. South: ♠ A K Q J 10 9 8 7 6 5 4 3 2, ♥ K 5 2, ♦ A Q 3, ♣ K 2.

The bidding:

South East North West
3♥ Pass 3♠(1) Pass
3NT Pass 4♠(3) Pass
Pass(3) Pass

For a heart bid, but felt that he should first show his six-card suit in response to South's forcing opening bid.

Pretty Wedding Solemnized at Nanaimo Church

NANAIMO, Aug. 13.—In a pretty floral setting in St. Andrew's United Church yesterday, the marriage was solemnized by the Rev. W. S. A. Cruik, of Ocean Park, and personal friend of the bride's family, who came to Nanaimo to officiate, of Nora Elizabeth, only daughter of Mr. and Mrs. Thomas A. Barnard, Albert Street, and popular member of the younger set of this city, and Mr. Percy James Campbell, son of Mr. and Mrs. D. R. Campbell, of Revelstoke.

The bride entered on the arm of her father to the strains of wedding music played by Mr. Andrew Dunsmore, and looked charming in a dress of French blue silk net on a base of flat crepe of the same delicate hue. The long straight lines were artistically developed into bodice and skirt-yoke effect by rows of fine tuckings, and ruchings of narrow satin ribbon, while diamond decorated buttons were attached to a full flare skirt that dipped to the ankle in the front and touched the floor behind. Her accessories consisted of a blue linen shoes to match her gown, gloves to meet the elbow sleeves of a transparent bolero, and a picture hat of sheer white tulle in French blue. Her attire was completed with a shower bouquet of cream sweetheart roses and lily of the valley.

ATTENDED BY COUSIN

She was attended by her cousin, Miss Sylvia Whymann, who wore a lovely creation of French printed chiffon in rainbow shades. She wore a smart hat of the same shade and carried a shower bouquet of white sweet peas, was the flower girl. Little Cecily Pashley, dressed in a French frock of the daintiest georgette, carrying a basket of colorful sweet peas, was the flower girl. Mr. Cyril Mitchell, of Victoria, was best man. During the signing of the register, Miss Elsie Pearson gave a lovely rendition of "O Perfect Love." Messrs. Ivan Whymann and Gordon Country were ushers.

RECEPTION HELP

A reception was held after the wedding ceremony at the bride's former home.

LUXTON AND HAPPY VALLEY

A special meeting of the Luxton and Happy Valley Women's Institute was held at the home of Mrs. S. Hutchison, recently. The business reports of the various committees of the flower show, card party and silver tea were given, and were satisfactory. The institute was able to take twelve debutantes from the hall committee in connection with the rebuilding of Luxton Hall. Arrangements were also made to hold a picnic at Taylor's Beach on Thursday, September 10.

Election Agent: "That was a fine speech our candidate made on the farming question, wasn't it?"

Farmer: "It wasn't so bad; but a couple of nights' good rain would have done a sight more good!"

1.—Using the approach forcing system, North should bid three Clubs in response to the opening forcing bid of two Hearts. His hand contains a biddable suit and one honor trick. It has distinct slam possibilities in view of the void Spade suit and the adequate support in North's opening bid of Hearts.

2.—Having the three top honors in Clubs, the Ace and King of Hearts and the Ace and Queen of Spades, South knows that North, in order to have made a bid of three Clubs, must hold the Ace of Diamonds. In no event on the bidding should the hand produce more than one loser, and the bid for a slam is therefore justified.

3.—North has a close decision, but the fact that his hand contains only one entry outside of the trump suit, and that the Club suit is only Knave high, decided him not to bid for a grand slam, which could be made, as above pointed out, only through taking a finesse twice in the Heart suit. With Hearts as trump, the North hand could not get in the lead often enough to make the necessary lead through the Queen and ten of Hearts, although with Clubs the entries could be established by trumping Spades after drawing the adverse trumps.

In play, so rich were North and South in Aces and Kings that they made six tricks, although holding only three trumps, the rather even division of East and West hands having averted a greater catastrophe, but as North and South were vulnerable and all other players holding their cards bid either a small or grand slam and made it, the set of four tricks undoubtedly was probably a sufficient penalty for inaccurate bidding.

TODAY'S POINTER

A correspondent has asked, "What is the proper bid on the hand below?"

Dealer: ♠ A K 6 5 4 3 2, ♥ K 5 2, ♦ A Q 3, ♣ K 2.

Answer: The proper bid on this hand is one Spade, and this bid, of course, the partner must pass, as he holds neither honor tricks nor distributional values to assist the spade bid. It is true the hand contains five honor tricks, but it comes within the 3-2-2 distribution, which requires 5½ honor tricks to make an opening bid of two in a suit. In other words, this hand is a type that would require a voluntary response (about 1½ honor tricks) to give any assurance of game. The hand itself contains seven playing tricks: four in Spades, two in Hearts, one in Diamonds, and the contract of one Spade, if undisturbed, will probably be made. If the Dealer opened with two Spades on this hand, the partner would respond with two No Trump. Dealer would then bid three Spades to show a five-card length and a fairly strong trump suit. Under the principle of once forcing always forcing, the partner would be compelled to then bid three No Trump, and this contract certainly will be defeated by two tricks, if not more, if his hand is trickless. There is no bid as much abused as the opening bid of two in a suit. It is a powerful weapon in the arsenal of any contract player if he understands the mechanism. It is a dangerous one, and likely to kill him rather than for if he does not.

Women's Institutes of Vancouver Island

COBBLE HILL

An interesting outing, which it is to be hoped will be an annual event, was the picnic given by the Cobble Hill Women's Institute for pioneer residents of this district and other parts. The event took place at Mill Bay Beach yesterday afternoon, and was open to those who have been in residence here for forty years and over. Some of those eligible were unavoidably absent, but others made special efforts; an instance being S. Allen-Olney who, despite the fact that he had not left his room for the past two years, was to be seen exchanging anecdotes with other old-timers. There were a number of present from outside the district, including some from Portland, Victoria and other parts. Conspicuous among local participants were to be noticed Mrs. C. Hollings, Mrs. Chapman and Mrs. G. Stuart, who, with the other pioneers, through the kindness of the Women's Institute, were enabled to meet many of their old friends. Congratulatory speeches were given by Dr. C. Wace and William Dwyer, of the Pioneer Society of Duncan.

LECTURE GIVEN
ON SWEET PEASJ. A. Hiberson Addresses Victoria
Horticultural Society—Annual
Meeting Set for Sept. 15

Victoria soil was too rich for the growing of sweet peas as a flower, but excellent for the production of seeds. J. A. Hiberson stated in a lecture given in the City Hall Wednesday night at a meeting of the Victoria Horticultural Society.

Mr. Hiberson spoke on the growth and culture of sweet peas and traced the history of the flower's production from its first inception in England during the latter part of the seventeenth century.

His remarks were most interesting, particularly his discussion of recent experiments in cross-fertilization by Burpee. He said there was still room for development in this field. The sweet peas of a garden blue had yet to be found, as also had a genuine yellow variety. The speaker, however, was optimistic and believed the Victoria grower could do much toward hybridizing the flower in the search for these particular varieties.

A gladiolus exhibit was held in connection with the meeting. I. A. M. Scott won first prize and F. T. Rollin second prize.

The association will hold its next show under the auspices of the British Columbia Agricultural Society at the Willows, the latter part of this month. The annual general meeting will take place on September 15, Secretary F. E. Boulter announced.

The Altona (Kan.) Tribune reports a resident of that town who appears on the porch of his home whenever his wife starts singing, so the neighbors can see he isn't beating her.

Burgess Bedtime Stories

Grubby Gopher at Home

By THORNTON W. BURGESS

When needs are few, pray be content
With all that is by Fortune sent.
—Grubby Gopher.

Grubby Gopher is rather a solitary small person save at certain times. Most of the time he seems to prefer his own company to the company of anyone else. And because of his way of living his neighbors know very little about him. He is a busy person, a hard worker.

"Only the idle have time to be unhappy," says Grubby, a saying in which there is more than a grain of truth. So when he isn't eating or sleeping Grubby is working. In this respect he is like Miner the Mole.

However, the latter, who lives on worms and insects in the ground, and has a tremendous appetite, has to keep at work most of the time in order to get enough to eat.

Grubby Gopher is a vegetarian. That means that he lives on roots, stems and seeds of various plants, and of course it is a great deal easier to get a supply of these things than it is to get a supply of worms and insects. So Grubby doesn't need to work so hard driving the earth back to the surface to get his food.

Now as Grubby Gopher worked he presently came to some roots that were much to his liking. He dug the earth away from around these, and then, having pushed the earth out on the nearest dump, he returned and began cutting these roots into convenient pieces and stuffing these into his pockets.

When he had the latter filled he carried them to another storeroom, for he likes to keep his different kinds of food separate, which is a sensible plan, I think you will agree. In the middle of the day he opened up one of his dumps to let warm and fresh air into his tunnel while he rested. Later he closed it. When night came and the Prairie Dogs were asleep he came out to look for certain foods he couldn't get elsewhere. It was a simple, busy life, but it suited Grubby and he was happy. After all, what more could he ask?

The next story: "Flip Gets a Lesson."

Now when Miner the Mole is boring a tunnel he uses his sharp nose to loosen the earth. Then he pushes one of his big, broad paws armed with sharp claws ahead past his nose and sweeps the loose earth behind him. He does the same thing with the other paw, so he sort of swims through the earth, and when he is near the surface pushes the grass and top soil up so as to make a ridge along the ground. I like to say he doesn't have so much earth to get rid of. It is only when he is too deep to push the earth up that he has to get rid of the loose earth by making an opening and pushing it out on the surface.

Grubby Gopher works a little deeper and does not make the surface ridges. So he has to get rid of the earth from his tunnels by pushing it out to the surface every little while. He hasn't a sharp nose for boring, so he uses his big, strong, long claws to dig away the earth, and this he throws under him between his hind feet, which are widely spread for this purpose, and to brace him for his work. This way he doesn't get kicked back by the hind feet. When there is enough of it behind him, Grubby turns around and with his paws and his snout's head pushes it back to the nearest dump. There he opens a hole to the surface and pushes the fresh supply of earth out, closing

the opening when he is through. It is in this way that the mounds are made. They are really dumps and nothing else. When the tunnel has been carried forward so far that it is inconvenient and a waste of time to push the earth back to the last dump a new opening is made and another dump started.

Now as Grubby Gopher worked he presently came to some roots that were much to his liking. He dug the earth away from around these, and then, having pushed the earth out on the nearest dump, he returned and began cutting these roots into convenient pieces and stuffing these into his pockets.

When he had the latter filled he carried them to another storeroom, for he likes to keep his different kinds of food separate, which is a sensible plan, I think you will agree. In the middle of the day he opened up one of his dumps to let warm and fresh air into his tunnel while he rested. Later he closed it. When night came and the Prairie Dogs were asleep he came out to look for certain foods he couldn't get elsewhere. It was a simple, busy life, but it suited Grubby and he was happy. After all, what more could he ask?

The next story: "Flip Gets a Lesson."

Now when Miner the Mole is boring a tunnel he uses his sharp nose to loosen the earth. Then he pushes one of his big, broad paws armed with sharp claws ahead past his nose and sweeps the loose earth behind him. He does the same thing with the other paw, so he sort of swims through the earth, and when he is near the surface pushes the grass and top soil up so as to make a ridge along the ground. I like to say he doesn't have so much earth to get rid of. It is only when he is too deep to push the earth up that he has to get rid of the loose earth by making an opening and pushing it out on the surface.

MORRISON REACHES SEMIS OF CANADIAN GOLF

Malone Allows Only Four Hits as Phils Defeat Chicago Cubs

Lowly National League Team Downs Hornsby's Crew, 4-3—Cards Whip Robins Again—Tigers Pound Senators—A's Win

PHILADELPHIA, Aug. 13.—The Philadelphia Nationals defeated the Chicago Cubs 4 to 3 today, with four scattered hits off Malone and May. One of them was a home run by Arlett.

Batteries: Malone, May and Hartnett; Collins and Davis.

Cards Whip Robins
BROOKLYN, Aug. 13.—Bill Hallahan outlasted Dazzy Vance today to give the St. Louis Cardinals an 8 to 5 victory over the Robins.

Batteries: Hallahan and Wilson; Vance, Shaute and Pichich.

Giants Break Even
NEW YORK, Aug. 13.—Bumping Larry French for five runs, including Ott's homer in the first inning, the Giants defeated Pittsburgh, 6 to 1, in the second game of today's double-header.

Batteries: French and Phillips; Mitchell and O'Farrell.

Reds Take Pair
BOSTON, Aug. 13.—The Cincinnati Reds led by Cunningham went on a batting spree today, defeating the Braves, 4 to 2, in the second game of a double-header after walking away with the opener, 1 to 3.

Batteries: Lucas and Sukerforth; Cunningham, McAfee, Hale and Spohrer, Boal.

AMERICAN LEAGUE
CHICAGO, Aug. 13.—The White Sox slugged four Washington pitchers.

Garth Van Campen, Seattle, Primo Carnera of the Pacific Northwest, will appear here in a six-round main event against Billy Campbell, Vancouver, on September 2 at the Armory on Promoter Joe Bayley's card.

Van Campen is a young Seattle giant, scaling six feet seven inches and weighing 345 pounds. He is twenty years old and is rated as one of the fastest and cleverest heavies on the Coast, despite his height and ponderance.

He comes from a family of large people. His father and mother are all, while his sisters and brothers are all close to the six-foot mark and weigh the scales down close to 200 pounds.

VICTORIA BOYS ON WEST COAST HIKE

PORT ALBERT, Aug. 12.—Two Victoria boys passed through this city last evening bent on a trip which many experienced men would hesitate to take.

Both boys appeared to be between fifteen and sixteen years of age and were filled with the confidence of youth that they would succeed without any trouble.

Total production of British wheat last year was 2,140,000,000 pounds, a reduction of 400,000,000 pounds, or nearly 18 per cent, from that of 1929.

LOCALS WIN CLOSE GAME FROM SIDNEY

Victoria's Lacrosse Squad Downs Suburbanites After Great Battle, 5-3

TEAMS WILL PLAY HERE ON SATURDAY

Tossing home three goals in the first period and one each in the second and third cantos, Victoria's gutted stick merchants opened their schedule in the newly-formed Victoria and District Lacrosse League Wednesday night at Sidney by defeating the home club, 5-3, after a fast and exciting encounter.

Segelbra made things interesting for the fans when he crashed through for two goals not long after the third period started.

At San Francisco, R. H. E. Portland 3 9 1 Seattle 5 9 0 Batteries: Orwall, Killen and Woodall; Gibson and Mesley.

At Los Angeles, R. H. E. Los Angeles 4 8 1 Los Angeles 5 9 0 Batteries: Hermann and Campbell; McEvoy, Gould and Severeid.

Public Schools—A. Gillespie, Meredith, Barber-Starkey, Saxton, Edith, Hewitt, Moffatt, P. Shanahan, Denbigh, R. Wenman and Smith.

Believe it or not By Ripley

BOYD CHANDLER, Rightfielder, CHILLICOTTE, JUMPED OVER A FENCE AND CAUGHT A FLY BALL THAT WAS RULED AS A HOME RUN.

DRAWN WITH A SINGLE LINE

EXPLANATION FOR YESTERDAY'S RIPLEY CARTOON
The waiter who carries eleven cups of coffee—Hugo, an ambitious waiter at Brown's Restaurant, 166 East 86th Street, New York, ambidextrously "clacks" ten cups of coffee on his left hand and takes the eleventh in his right hand, nonchalantly serving a table of eleven patrons simultaneously.

A. F. Bergman, the Running Barber—Running and walking has always been Mr. Bergman's hobby, and now at the age of forty-three he has covered a total distance of 200,000 miles on foot.

To Meet Somerville Today

BOB Morrison, Uplands Golf Club champion, who is the lone surviving British Columbian left in the Canadian amateur golf championship at Montreal.

British Tennis Players Advance to Final Round

Joan Ridley and Mrs. Pittman to Meet for United States Eastern Net Championship—Hughes and Perry Win in Men's Singles

RYE, N.Y., Aug. 13 (AP).—Joan Ridley and Mrs. Pittman, both of whom failed of selection in the British Wightman Cup team, advanced to the final round of women's singles in the Eastern turf court tennis championships today.

TEAMS NAMED FOR FIXTURE
Squads for International Match at Seniors' Golf Today Are Announced

CANADIAN SQUAD WILL DEFEND CUP
Confident of retaining the Nicol Cup, won for the first time last year at the Colwood layout, A. T. Goward will skipper the Canadian team against Captain J. H. Fuller, Aberdeen, and his United States aggregation this afternoon at the Oak Bay links in the international match held in conjunction with the Seniors' Northwest Golf Association tournament.

Head of the American side is Judge H. B. Rigg, Yakima, and Winlock Miller, Seattle, today's finalists for the grand championship.

1:00—Judge H. B. Rigg vs. L. A. Lewis.
1:15—W. Miller vs. J. E. Wilson.
1:30—C. R. Harold vs. J. A. Hayward.
1:45—Dr. C. B. Ford vs. R. A. Gibson.

1:50—J. A. Byerly vs. T. J. Lewis.
2:05—E. G. Griggs vs. F. R. Stewart.
2:10—James Fuller (captain), vs. A. T. Goward (captain).

MAKES FINE CATCH
Harry Bangor, Seattle, made a great catch at Brentwood while fishing with Bob Stacey yesterday.

WILL CONFESS IN BERLIN
PARIS, Aug. 13 (AP).—Premier Laval this afternoon accepted Chancellor Bruening's invitation for a return Franco-German conference in Berlin and the trio was set for August 28.

Victoria Youngster Gains Place in Last Four in Title Meet

Captains Named For Golf Match At Oak Bay Club

PERCY Criddle, Victoria, and Dr. A. E. MacKay, Portland, were chosen as captains of the All-Canada and All-America teams, respectively, for the annual conflict to take place this afternoon at the Oak Bay Golf Club in conjunction with the Seniors' Northwest Golf Association tournament.

GOLF BODY ORGANIZED NINE YEARS
Senator G. H. Barnard and Capt. J. V. Perks Fathers of Seniors' Association

CLOSE TO 1,500 HAVE SOUGHT CHAMPIONSHIP
At a meeting at the Union Club in 1923, several members of local golf clubs organized the present Seniors' Northwest Golf Association.

At the thirty-first, Innes' second shot landed in the creek at the foot of the green, and he dropped the hole, and the match, 7 and 5.

Uplands Club Champion Defeats Francis Ryan, Detroit Ace, After Grueling Tussle, 2 Up—Will Meet Defending Champion Today—Freddie Wood Falls by Wayside

Ross Somerville and Yates in Easy Wins; J. Cameron Advances

Continued from Page 1
who will give any of the top-flight stars a hard battle.

STARTS WELL
Although he defeated Innes by a huge margin, Somerville was instrumental in establishing a new Canadian star.

PORTLANDER SELECTED AS HEAD OF SENIORS' GOLF ASSOCIATION AT MEETING HERE
CAPT. J. V. PERKS AGAIN SECRETARY

C. F. SWIGERT IS ELECTED GOLF PREXY
C. F. Swigert, prominent Portland business man, will guide the destinies of the Seniors' Northwest Golf Association for the ensuing twelve months, as a result of the annual meeting held at the Victoria Golf Club yesterday afternoon.

SPECTACULAR SHOT
In the afternoon round, Somerville continued to add to his margin, and at the fourth hole, a 360-yard distance, the champion scored an eagle two, holing out his pitch to the green from a distance of about 100 yards.

THIRILLING MATCH
Cameron's match with Wood, the young Vancouver player, was a thriller from beginning to end, the lead changing hands frequently.

Important Notices, Employment, Business and Professional Directory, Wants, Etc.

The Daily Colonist

WANTS CLARIFIED OR WANT ADVERTISEMENTS

One and one-half cents a word each column, nine cents a word a week, with a minimum of ten words each column. No advertisement accepted for less than twenty-five cents.

Death and Funeral Notices, \$1.00 first insertion, \$1.00 for each additional insertion. Marriages, Cards of Thanks and in Memoriam Notices, \$1.00 per insertion.

Birth Notices, \$1.00 per insertion.

Business or Professional Cards, \$1.00 per insertion, \$1.00 for each additional insertion.

Advertisements who desire may have their notices addressed to a box at the Colonist and forwarded to their private address. A charge of ten cents is made for mailing notices. In this case a 3-cent word "Box" must be added to the count for the number of words.

Out-of-town readers of our advertisements are asked to give address as well as phone number, as it is not always possible to communicate through the phone.

To insure insertion Classified Ads should reach the Colonist before 10 p.m. on the day preceding publication.

Classified Ads for the Sunday Colonist will be accepted up to 10 p.m. on Saturday.

The Colonist will not be responsible for loss of or omission of notices or for notices not appearing on the date of the same. The advertiser is asked to make no claim for the return of notices.

Twenty Hurt When Dance Floor Collapses

TREYNOR, Iowa, Aug. 13 (AP).—More than twenty persons were injured last night when the floor of a second-story dance hall collapsed, plunging fifty persons into a garage below. The injured were taken to a Council Bluffs hospital. Today several were reported in a serious condition. The dance hall building was twenty-eight years old.
